RESTRICTED USE PESTICIDE
Due to Avian, Aquatic and Small Mammal Toxicity
For retail sale to and use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicator’s Certification.

AERIS
Seed-Applied Insecticide/Nematicide

Net Contents:

For Use Only In Commercial Seed Treatment Equipment

ACTIVE INGREDIENTS
IMIDACLOPRID: 1-[[6-Chloro-3-pyridinyl]methyl]-N-nitro-2-imidazolidinimine] ........................................... 24% by wt.
INERT INGREDIENTS: ........................................... 32% by wt.
Contains 2.5 pounds active imidacloprid per U.S. gallon
Contains 2.5 pounds active thiodicarb per U.S. gallon

EPA Reg. No. 254-1057

KEEP OUT OF REACH OF CHILDREN
CAUTION

FIRST AID

IF SWallowed:
- Call a Poison Control center or doctor immediately for treatment advice.
- Have person sip water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

IF INHALED:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance; give artificial respiration, if trained.
- Call a poison control center or doctor for further treatment advice.

IF SKIN OR CLOTHING:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water (15-20 minutes).
- Call a poison control center or doctor for treatment advice.

IF IN EYES:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after first 15 minutes, then continue rinsing.
- Call a poison control center or doctor for treatment advice.

For medical emergencies call 911 or 1-800-222-1222.

SIGNS AND SYMPTOMS OF OVEREXPOSURE
- Gastritis, drowsiness, nausea, watery eyes, abdominal pain, sweating, violation, convulsions, vomiting, loss of appetite, diarrhea, weakness, headache.

IN SEVERE CASES, CONSULT A PHYSICIAN, AND RESPIRATORY failure may OCCUR.

ANTIDOTE STATEMENT: ATROPINE SULPHATE IS HIGHLY EFFECTIVE AS AN ANTIDOTE. SEE NOTE TO PHYSICIAN.

GENERAL
- If exposure occurs, contact a physician immediately.
- If breathing stops, establish artificial breathing and oxygen. Remove patient to an area of fresh air.
- In case of continued suspicion, contact a physician immediately.
- If exposure continues for a long time, consult a physician immediately.

NOTE TO PHYSICIAN
- All treatments should be based on observed signs and symptoms of dermonecrosis. Overexposure to mep Kamal may cause toxic effects and symptoms due to stimulation of the chemotransmitter system. These effects of overexposure are potentially serious and require immediate medical attention. Gastric lavage may be used to remove any remaining pesticide. Respiratory support may be required in severe cases. Intravenous fluids may be necessary to maintain intravascular fluid balance. Consult a physician immediately.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
- Apply only as directed. Contact with eyes, skin, or clothing. Avoid contact with eyes, skin, or clothing. Keep out of reach of children. Caution is recommended for use in areas where children may be present. Avoid contact with eyes, skin, or clothing. Keep out of reach of children. Caution is recommended for use in areas where children may be present.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
- Use appropriate protective clothing and equipment when handling this product. Consult the product label for specific instructions on personal protective equipment.

USER SAFETY RECOMMENDATIONS

- Do not inhale dust, mist, or spray directly into the eyes.
- Do not inhale dust, mist, or spray directly into the mouth.
- Do not inhale dust, mist, or spray directly into the nose.
- Do not inhale dust, mist, or spray directly into the ears.
- Do not inhale dust, mist, or spray directly into the skin.
- Do not inhale dust, mist, or spray directly into the respiratory tract.
- Do not inhale dust, mist, or spray directly into the gastrointestinal tract.
- Do not inhale dust, mist, or spray directly into the urinary tract.
- Do not inhale dust, mist, or spray directly into the reproductive tract.
- Do not inhale dust, mist, or spray directly into the central nervous system.
- Do not inhale dust, mist, or spray directly into the peripheral nervous system.
- Do not inhale dust, mist, or spray directly into the immune system.
- Do not inhale dust, mist, or spray directly into the endocrine system.
- Do not inhale dust, mist, or spray directly into the cardiovascular system.
- Do not inhale dust, mist, or spray directly into the respiratory system.
- Do not inhale dust, mist, or spray directly into the gastrointestinal system.
- Do not inhale dust, mist, or spray directly into the urinary system.
- Do not inhale dust, mist, or spray directly into the reproductive system.
- Do not inhale dust, mist, or spray directly into the central nervous system.
- Do not inhale dust, mist, or spray directly into the peripheral nervous system.
- Do not inhale dust, mist, or spray directly into the immune system.
- Do not inhale dust, mist, or spray directly into the endocrine system.
- Do not inhale dust, mist, or spray directly into the cardiovascular system.
- Do not inhale dust, mist, or spray directly into the respiratory system.
- Do not inhale dust, mist, or spray directly into the gastrointestinal system.
- Do not inhale dust, mist, or spray directly into the urinary system.
- Do not inhale dust, mist, or spray directly into the reproductive system.
- Do not inhale dust, mist, or spray directly into the central nervous system.
- Do not inhale dust, mist, or spray directly into the peripheral nervous system.
- Do not inhale dust, mist, or spray directly into the immune system.
- Do not inhale dust, mist, or spray directly into the endocrine system.
- Do not inhale dust, mist, or spray directly into the cardiovascular system.
- Do not inhale dust, mist, or spray directly into the respiratory system.
- Do not inhale dust, mist, or spray directly into the gastrointestinal system.
- Do not inhale dust, mist, or spray directly into the urinary system.
- Do not inhale dust, mist, or spray directly into the reproductive system.
- Do not inhale dust, mist, or spray directly into the central nervous system.
- Do not inhale dust, mist, or spray directly into the peripheral nervous system.
- Do not inhale dust, mist, or spray directly into the immune system.
- Do not inhale dust, mist, or spray directly into the endocrine system.
- Do not inhale dust, mist, or spray directly into the cardiovascular system.
- Do not inhale dust, mist, or spray directly into the respiratory system.
- Do not inhale dust, mist, or spray directly into the gastrointestinal system.
- Do not inhale dust, mist, or spray directly into the urinary system.
- Do not inhale dust, mist, or spray directly into the reproductive system.
- Do not inhale dust, mist, or spray directly into the central nervous system.
- Do not inhale dust, mist, or spray directly into the peripheral nervous system.
- Do not inhale dust, mist, or spray directly into the immune system.
- Do not inhale dust, mist, or spray directly into the endocrine system.
- Do not inhale dust, mist, or spray directly into the cardiovascular system.
- Do not inhale dust, mist, or spray directly into the respiratory system.
- Do not inhale dust, mist, or spray directly into the gastrointestinal system.
- Do not inhale dust, mist, or spray directly into the urinary system.
- Do not inhale dust, mist, or spray directly into the reproductive system.
- Do not inhale dust, mist, or spray directly into the central nervous system.
- Do not inhale dust, mist, or spray directly into the peripheral nervous system.
COTTON (Bolltect Seed Only)

For Early Season Protection Against Certain Blossom and Leafdeterm Insects and Certain Nematodes:

BOLLTEC® Seed-Applied Insecticide will provide protection of cotton seedlings against injury by early season thrips, aphids, lygus, leafhoppers, cutworms and various and root knot nematodes. When the specific applicator rate is directed on an individual seed base apply 0.75% mg, inert ingredient, and 0.075 mg thiocarbamate a.i. per seed prior to planting on a sandy treatment soil to ensure thorough coverage. Otherwise apply 26.4 fl oz active ingredient per hundred pounds of seed. Do not apply more than 15.5 fl oz active ingredient per hundred pounds of seed.

Do not exceed a total of 4 pounds thiodicarb a.i. per acre per season for sow treatment and foliar applications combined. Do not exceed a total of 10 pounds thiodicarb a.i. per acre per season for sow treatment and foliar applications combined. Do not exceed a total of 0.5 pounds imidacloprid a.i. per acre per season for sow treatment, soil, and foliar applications combined.

The Federal Seed Act requires that bags containing treated seeds shall be labeled with the following statements:

- This seed has been treated with thiocarbamate and imidacloprid.
- Do not use for feed, food, or any other purposes.
- In addition, the U.S. Environmental Protection Agency requires the following statements on bags containing seed treated with BOLLTEC® Seed-Applied Insecticide/Herbicidal:

  - Enjoy away from food and feedstuffs.
  - Do not allow children, pets, or livestock to have access to treated seeds.
  - Wear long-sleeved shirts, long pants, and chemical-resistant gloves made out of any sturdy material when handling treated seed.
  - For cotton growers, do not exceed a total of 24 pounds thiodicarb a.i. per acre per season for sow treatment and foliar applications combined. Do not exceed a total of 10 pounds thiodicarb a.i. per acre per season for sow treatment, soil, and foliar applications combined. Do not exceed a total of 0.5 pounds imidacloprid a.i. per acre per season for sow treatment, soil, and foliar applications combined.
  - Treated seed must be planted into the soil at a depth greater than 1 inch. Treated seeds exposed on soil surface may be hazardous to birds or other wildlife. Cover or collect treated seeds that are spilled during handling and in areas such as row ends.
  - Dispose of all access treated seed by burial away from bodies of water.
  - Do not contaminate bodies of water when disposing of planting equipment wash water.
  - Plant BOLLTEC® Seed-Applied Insecticide/Herbicidal treated seed based upon local pest and pest Management practices as recommended by your state or county extension agent.
  - For California growers, seed in a field with a history of high nematode populations, an off-plant application of TEMPH™ brand 50% Achorizol® Pesticide is recommended.
  - Always saturate planting points prior to planting to achieve the desired seeding rate.

STORAGE AND DISPOSAL

Do not contaminate seeds, feed or storage of grain.

PESTICIDE STORAGE

Store unused product in a cool, well-ventilated area. Do not store in areas where temperatures frequently exceed 115°F (46° C) or below 5°F (-15° C). NEVER TRANSFER THIS PRODUCT OR CONTAINER TO ANOTHER CONTAINER FOR STORAGE.

PESTICIDE DISPOSAL

Interception disposal of excess pesticide or insect is a violation of federal law. If these wastes cannot be disposed of by users according to label instructions, contact your state pest control or environmental control agency or the hazardous waste representative at the nearest EPA regional office for guidance.

CONTAINER DISPOSAL

Non-refillable containers: Do not reuse or refill this container. After emptying product from container, either return container to Bayer CropScience or instruct from your state pest control or environmental control agency or the hazardous waste representative at the nearest EPA regional office for guidance.

Empty Containers (1 gal. or less): Dispose of the container in accordance with your state or local regulations. For California growers, empty containers containing thiodicarb may not be disposed of as regulating material or waste.

Empty Containers (1 gal. or less): Dispose of the container in accordance with your state or local regulations. For California growers, empty containers containing thiodicarb may not be disposed of as regulating material or waste.

ACCIDENTS: in case of a major spill of BOLLTEC® Seed-Applied Insecticide/Herbicidal TELEPHONE (24 hours a day) IN THE U.S. 1-800-324-7677.

WARRANTY STATEMENT

IMPORTANT: READ BEFORE USE

Read the entire Direction for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product. If items are not acceptable, return the unopened product at once.

BY USING THIS PRODUCT, USER OR BUYER ACCEPTS THE FOLLOWING CONDITIONS: DISCLAIMER OF WARRANTIES AND LIMITATIONS OF LIABILITY.

1. The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Crop injury, infertility, or other unintended consequences may result because of local conditions, presence of other materials, or the manner of use of this product. Bayer CropScience will not be liable for this or any other claims.

2. DISAMERING OF WARRANTIES: TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BAYER CROPSCIENCE MAKES NO OTHER WARRANTIES, EXPRESSED OR IMPLIED, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE, THAT EXTEND BEYOND THE STATEMENTS MADE ON THIS LABEL. NO AGENT OF BAYER CROPSCIENCE IS AUTHORIZED TO MAKE ANY GUARANTEES OR REPRESENTATIONS WHICH ARE CONTRARY TO OR DIFFER FROM THE STATEMENTS MADE ON THIS LABEL. THE USER OR PURCHASER OF THIS PRODUCT IS HEREBY ADVISED TO INFORM ITSELF AS TO THE QUALITY AND CONDITION OF THE MATERIAL, THE USER OR PURCHASER BEING SOLELY RESPONSIBLE FOR SUCH INFORMATION AND THE USE OF THE MATERIAL.

3. LIMITATIONS OF LIABILITY: TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR PURCHASER FOR ANY AND ALL LOSSES, INJURIES OR DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. WHETHER IN CONTRACT, WARRANTY, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, IS THE REPLACEMENT OF THE MATERIAL. THE REPLACEMENT OF PRODUCT.
