**WARNING**

May be harmful if swallowed. May be harmful in contact with skin. Causes serious eye irritation. Causes mild skin irritation. May be harmful if inhaled.

**KEEP OUT OF REACH OF CHILDREN**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**WARNING**

Before using this product, read all precautions, directions for use, conditions of sale—limited warranty and limitations of liability and remedies. May be harmful if swallowed. May be harmful in contact with skin. Causes serious eye irritation. Causes mild skin irritation. May be harmful if inhaled. Avoid contact with eyes and prolonged contact with skin to avoid irritation. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse. Do not take internally. Avoid contact with or inhalation of the spray mist. Do not apply this product in such a manner as to directly expose workers or other persons. If product is being mixed with pesticides and/or spray adjuvants, follow all precautionary statements on the accompanying product(s) labelling. Not for human or animal consumption.

**Personal Protective Equipment (PPE):** Wear protective eyewear (goggles or face shield), chemical-resistant gloves, long-sleeved shirt and long pants, and shoes plus socks when using this product. Take off any contaminated clothing and wash before reuse.

**FIRST AID**

**IF SWALLOWED:** Call a poison center or doctor if you feel unwell. Rinse mouth.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor.

**IF ON SKIN:** Remove contaminated clothing and wash skin with soap and water. If skin irritation occurs, get medical advice/attention.

**IF INHALED:** Call a poison center or doctor if you feel unwell.

**FOLIAR FERTILIZER**

**CONTROLLED RELEASE NITROGEN**

**NET CONTENTS:** 2.5 GAL

**SN:** 1015081665

**NET WEIGHT:** 24.75 LBS

**WEIGHT PER GALLON:** 9.9 lbs (4.5 kg)

---

**GENERAL USE RATE RECOMMENDATIONS**

**FIELD CROPS**

**ALFALFA:** 4-6 qts. per acre. Apply after each cutting when sufficient foliage is present.

**CANOLA:** 4-8 qts. per acre. Apply pre-bloom.

**CORN (POP):** 3-5 gallons per acre applied as a foliar application when used with fungicides, insecticides. Maximum replacement value of side-dress Nitrogen (N) using CoRoN®: 3.0-5.0 gal. = 37.5 lbs. Nitrogen (N)

**CORN (SEEDLING):** 3-5 gallons per acre applied as a foliar application when used with fungicides, insecticides. Maximum replacement value of side-dress Nitrogen (N) using CoRoN®: 3.0-5.0 gal. = 37.5 lbs. Nitrogen (N)

**COTTON (SEEDLING):** 3.0-5.0 gal. = 37.5 lbs. Nitrogen (N)

---

**GENERAL INFORMATION**

This product is recommended for use as a supplement to a regular fertilizer program. CoRoN® 25-0-0 is a unique foliar fertilizer that contains polymethylene urea solution, a patent pending, controlled release nitrogen source. CoRoN® 25-0-0 is a foliar fertilizer intended as a supplement to a regular fertilizer program and will not by itself provide all the nutrients required by crops or other intended plants. Successful nitrogen application rates are dependent upon a number of factors, such as soil type, organic matter content, soil nitrate level, previous crop, irrigation or non-irrigation, variety, planting date, etc. Unexpected weather variations make preplant and/or early season nitrogen application rates difficult to recommend. To achieve efficiency, nitrogen fertilizer use should be considered as a dependent production variable. Total nitrogen applied will depend upon the needs of the developing plant and those environmental factors responsible for the production system in each field. Soil test recommendations and specific nitrogen rates are usually for average conditions only. For efficient nitrogen use, use starter fertilizer band applications during cultivation and foliar applications of CoRoN® 25-0-0.

**GENERAL USE RATE RECOMMENDATIONS**

**FIELD CROPS**

**ALFALFA:** 4-6 qts. per acre. Apply after each cutting when sufficient foliage is present.

**CANOLA:** 4-8 qts. per acre. Apply pre-bloom.

**CORN (POP):** 3-5 gallons per acre applied as a foliar application when used with fungicides, insecticides. Maximum replacement value of side-dress Nitrogen (N) using CoRoN®: 3.0-5.0 gal. = 37.5 lbs. Nitrogen (N)

**CORN (SEEDLING):** 3-5 gallons per acre applied as a foliar application when used with fungicides, insecticides. Maximum replacement value of side-dress Nitrogen (N) using CoRoN®: 3.0-5.0 gal. = 37.5 lbs. Nitrogen (N)

**COTTON (SEEDLING):** 3.0-5.0 gal. = 37.5 lbs. Nitrogen (N)

**DISCLAIMER:** Always refer to the label on the product before using Helena or any other product.
LETTUCE: 1-3 gallons per acre applied from spring to early growth stage as a foliar application for partial Nitrogen (N) replacement. Certain conditions may change the maximum replacement value, but only with the approval of your Helena Chemical Company sales representative using prior experience and local data.

CORN (SWEET): 3-5 gallons per acre applied at V-5 to V-8 as a foliar application for use as a partial side-dress Nitrogen (N) replacement. 1-3 gallons per acre applied as a partial replacement of soil applied Nitrogen (N).

SMALL GAINS: 1-3 gallons per acre at or near flag leaf stage as a Nitrogen (N) supplement. Maximum replacement value for partial Nitrogen (N) replacement: 3.0 gal. = 37.5 lbs. Nitrogen (N). Certain conditions may change the maximum replacement value, but only with the approval of your Helena Chemical Company sales representative using prior experience and local data.

SOYBEANS: 1-3 gallons per acre as a Nitrogen (N) supplement. Apply at V6-R4 growth stage.

SUGAR BEETS: 1-3 gallons per acre. Apply at 10-12 leaf and repeat at 20 leaf.

SUNFLOWER: 4-6 qts. per acre. Apply when outer seeds start to fill, repeat in 10-14 days.

SWEET POTATOES: 6-10 qts. per acre. Apply at tuber initiation and repeat at 10-14 days.

TOBACCO: 6-10 qts. per acre. Apply at plant bed stage to near maturity as needed to maintain crop growth and quality.

OTHER CROPS: 4-6 qts. per acre. Apply when sufficient foliage is present, try on a small area until more experience and trials have been completed to determine if higher rate is desirable.

VEGETABLES

ASPARAGUS: 6-10 qts. per acre. Apply beginning at mid-fern development, then at 14-21 day intervals. Apply 4-6 qts. per acre at early bud stage and repeat at 10-14 day intervals.

BEANS (DRY): (Single Application) – 10 qts. per acre at early pod formation. (Multiple Application) – 4-6 qts. per acre at early full flower and repeat in 10-14 days.

BEANS (GREEN, LIMA): 4-6 qts. per acre at early flowering and repeat in 7-10 days.

BROCCOLI: 6-10 qts. per acre. Apply first application after thinning, then 3 weeks before head formation and repeat in 7-10 days.

CABBAGE: 6-10 qts. per acre. Apply first application after thinning, then early head formation and repeat after 14-21 days.

CANTALOUPE: 6-10 qts. per acre. Apply at early flowering and repeat 7-10 days later.

CAULIFLOWER: 6-10 qts. per acre. Apply first application after thinning or transplant, other applications at early head set and repeat at 10-14 day intervals.

CELERI: 4-6 qts. per acre. Apply when plants are 8-12 inches tall and repeat at 10-14 day intervals.

CORN (SWEET): 3-5 gallons per acre applied at V-5 to V-8 as a foliar application for use as a partial side-dress Nitrogen (N) replacement. 1-3 gallons per acre applied as a foliar application at pre-tassel as a Nitrogen (N) supplement. 1-2 gallons per acre applied as a foliar application when used with fungicides or low rates of nitrogen.

CUCUMBERS: (Single Application) – 10-16 qts. per acre. Apply at early fruit set. (Multiple Applications) – 4-6 qts. per acre. Apply at early flowering and repeat at 10 - 14 day intervals.

LENTILS: 4-6 qts. per acre. Apply at early flowering and repeat at 10 - 14 day intervals. Apply 4-6 qts. per acre after thinning, then at early head formation and repeat at 10 - 14 day intervals.

OKRA: 4-6 qts. per acre. Apply at bud stage and repeat at 10-14 day intervals.

ONIONS: 4-6 qts. per acre. Apply at mid-set development and repeat at 14-21 day intervals.

PEAS: 4-6 qts. per acre. Apply at early flowering and repeat at 10-14 days.

PEPPERS: 4-6 qts. per acre. Apply at early fruit set and repeat at 10-14 days.

SPINACH: 6-10 qts. per acre. Apply when sufficient foliage is present and repeat at 14-21 day intervals.

SQUASH: 6-10 qts. per acre. Apply at early fruit set and repeat at 10-14 day intervals. Apply 4-6 qts. per acre at full bloom and repeat at 10 - 14 day intervals until harvest is near completion.

WATERMELONS: 6-10 qts. per acre. Apply at early flowering and repeat 7-10 days later.

OTHER CROPS: 4-6 qts. per acre. Apply when sufficient foliage is present, try on a small area until more experience and trials have been completed to determine if higher rate is desirable.

FRUITS AND NUTS

ALMONDS: Apply 6-10 qts. per acre at full leaf. Repeat at early nut expansion.

APPLES: Apply 4-6 qts. per acre prior to fruit set or post harvest.

CARABBEANERS: Apply 4-6 qts. per acre prior to fruit set.

CHERRIES: Apply 4-6 qts. per acre prior to fruit set.

CRANBERRIES: Apply 4-6 qts. per acre at hook stage and repeat after fruit set.

CRANBERRIES: (Multiple Applications) – 10-16 qts. per acre at early fruit development and repeat at 10-14 day intervals.

OLIVES: Apply 4-6 qts. per acre at early fruit development and repeat as required.

STRAWBERRIES: Apply 2-3 qts. per acre at early flowering and repeat every 14 days through harvest. Initiate fall application when new growth reaches 3 inches in height.

APPLES: 6-10 qts. per acre prior to full bloom. Apply 4-6 qts. per acre at full leaf. Repeat at early nut expansion.

PEACHES/NECTARINES: 6-10 qts. per acre prior to full bloom. Apply 4-6 qts. per acre at full leaf. Repeat at early nut expansion.

PUMPKINS: Apply 6-10 qts. per acre prior to full bloom.

PECANS: Apply 4-6 qts. per acre at full leaf. Repeat at early nut expansion.

OLIVES: Apply 4-6 qts. per acre at early fruit development and repeat as required.

STRAWBERRIES: Apply 2-3 qts. per acre at early flowering and repeat every 14 days through harvest. Initiate fall application when new growth reaches 3 inches in height.

OTHER CROPS: 4-6 qts. per acre. Apply when sufficient foliage is present, try on a small area until more experience and trials have been completed to determine if higher rate is desirable.

TURF, TREE & SHRUB

BENT GRASS: 4.5-6.8 lbs. of nitrogen per 1,000 sq. ft. per year applied in multiple applications of 1/8 to 1/4 lb. of nitrogen. Use higher rates in areas with prolonged growing seasons, areas of high foot traffic or in “grow in” situations.

BERMUDA GRASS: 9-11.5 lbs. of nitrogen per 1,000 sq. ft. per year in multiple applications of 3/4 to 1 1/2 lbs. of nitrogen. Use higher rates in areas with prolonged growing seasons, areas of high foot traffic or in “grow in” situations.

BLUE GRASS & OTHER COOL SEASON GRASSES: 3.75-4.25 lbs. of nitrogen per 1,000 sq. ft. per year applied in multiple applications. Use higher rates in areas with prolonged growing seasons, areas of high foot traffic or in “grow in” situations.

ST. AUGUSTINE & OTHER WARM SEASON GRASSES: 2.5-3.5 lbs. of nitrogen per 1,000 sq. ft. per year applied in multiple applications. Use higher rates in areas with prolonged growing seasons, areas of high foot traffic or in “grow in” situations.

TREE & SHRUB: 2 lbs. of nitrogen per 1,000 sq. ft. of landscape area root-injected or flood-applied in minimum of two applications per year or foliar apply at 1/2 gal. per 100 gals. of spray solution.

COMMERCIAL CHRISTMAS TREES, ORNAMENTALS AND NURSERY STOCK

Apply 4-10* qts. per acre when sufficient foliage is present. CoRoN® 25-0-0 has been applied undiluted to some types of ornamentals and nursery stock. Since these plants vary widely in growth habit and leaf type, some types are more susceptible to leaf tip burn than others. It is recommended that the user try only a few plants at undiluted or concentrated rates and observe for a week before general applications are made.

*Rate of 10 qts. per acre is equivalent to 7.35 oz. per 1,000 square feet.

CONDITIONS OF SALE–LIMITED WARRANTY

Read the Conditions of Sale–Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unfurled, and the full purchase price will be refunded.

This label is believed to be reliable and must be followed carefully. Injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Helena Chemical Company (the “Company”) or seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.

The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Helena Chemical Company’s election, one of the following:

1. Refund of the purchase price paid by buyer or user for product bought, or
2. Replacement of the product used.

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
