Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

ENVIRONMENTAL HAZARDS
Do not apply directly to water, to areas where surface water is present or to intermittent areas below the mean high water mark. This pesticide is toxic to wildlife and fish. Use with care when applying in areas adjacent to any body of water. Apply this product only as specified on the label. Do not contaminate water by cleaning of equipment or disposal of washwater.

PERSONAL PROTECTIVE EQUIPMENT
Some materials that are chemical-resistant to this product are listed below. If you wish to make more options, follow the instructions for category B chemical resistance category selection chart.

APPLICATIONS AND OTHER HANDLERS MUST WEAR:
- Coveralls over long-sleeved shirt and long pants
- Chemical-resistant gloves, such as natural rubber ≤ 24 mils
- Chemical-resistant footwear
- Protective eyewear
- Chemical-resistant headgear for overhead exposures
- Chemical-resistant apron (knees and loins)

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 190.106 (b) & (c)), the handler PPE requirements may be reduced or modified as specified in the WPS.

GENERAL INFORMATION
Double O E-Pro Herbicide is a pre-emergent herbicide that combines two herbicides into a clay granule to provide a broader spectrum of weed control and ornamental plant tolerance. Double O E-Pro Herbicide does not control established weeds and is not registered for use on vegetable or edible fruit bearing crops, turf, bedding plants or flowering crops. Double O E-Pro Herbicide is a pre-emergent herbicide that combines two herbicides into a clay granule to provide a broader spectrum of weed control and ornamental plant tolerance. Double O E-Pro Herbicide does not control established weeds and is not registered for use on vegetable or edible fruit bearing crops, turf, bedding plants or flowering crops.

APPLICATION RATE PER...

PLANT TOLERANCE TO DOUBLE O E-PRO HERBICIDE
The following species are tolerant of Double O E-Pro Herbicide when used at the recommended application rates:

<table>
<thead>
<tr>
<th>Species</th>
<th>Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ageratum conyzoides</td>
<td>1 g</td>
</tr>
<tr>
<td>Alyogyne</td>
<td>100 g</td>
</tr>
<tr>
<td>Alyogyne herbacea</td>
<td>100 lbs.</td>
</tr>
<tr>
<td>Alyogyne polifolia</td>
<td>1.1 kg</td>
</tr>
</tbody>
</table>

Agronomic Applications:
- Apply Double O E-Pro Herbicide in agricultural use only, as directed on the label. Double O E-Pro Herbicide is not recommended for use on ornamentals, turf, or edible fruit bearing crops. Double O E-Pro Herbicide is not recommended for use on ornamentals, turf, or edible fruit bearing crops.
- Do not use Double O E-Pro Herbicide in homes or garages or on food or feed areas.

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 190. This standard requires the protection of agricultural workers on farms, forests, nurseries, and greenhouses and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification and emergency assistance. It also contains specific instructions and exemptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to use of this product that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water. Do not allow the water to come into contact with plants growing on treated areas. Do not use on plants growing on treated areas. Do not use on plants growing on treated areas.

Double O E-Pro Herbicide is not recommended for use on the following species:

ABA
- Covington Gold (Yarrow)
- Agrostis
- Linearis 'Mauve Blue'
- Celosia
- Forsy (Forsythia)
- Convolvulus
- Lysimachia 'Blitz'
- Celosia
- Golden Yellow
- Dianthus
- 'Cardinal Red'
- Diasma
- 'Pink Augusta'
- Diasma 'Purple Mountain'
- Phlox
- 'Dazzle'
- Diasma 'Flamingo'
- Diasma 'Vivace'
- Diasma 'Starlight'

CONTAINER GROWN ORNAMENTALS

Apply Double O E-Pro Herbicide prior to transplanting into the field, or following complete weed removal in the spring or fall. Make repeat applications throughout the growing season at a maximum of three (3) month intervals under most conditions. Apply Double O E-Pro Herbicide immediately after planting, or following complete weed removal using a rate of 100 lbs. per acre (220 lbs. per ha.).

FIELD GROWN ORNAMENTALS AND LABELED CHRISTMAS TREES

Apply Double O E-Pro Herbicide either immediately after planting, or following complete weed removal in the spring or fall, or following complete weed removal using a rate of 100 lbs. per acre (220 lbs. per ha.). Immediately after application, irrigate with approximately 1/2 inch of water and then allow foliage to dry.

LANDSCAPE ORNAMENTALS

IMPORTANT: Double O E-Pro Herbicide should be applied only to those species listed on the Double O E-Pro Herbicide label. Do not transplant into the field, or following complete weed removal using a rate of 100 lbs. per acre (220 lbs. per ha.). Immediately after application, irrigate with approximately 1/2 inch of water and then allow foliage to dry.
**CUT FLOWER AND FOLIAGE CROPS**

Apply Double O E-Pro Herbicide prior to weed germination or following complete weed removal. To settle the soil around the root systems, after planting and prior to application irrigate with approximately 1/2 inch of water and then allow foliage to dry. Broadcast Double O E-Pro Herbicide evenly over the production area and irrigate immediately after application to activate the herbicide.

Wait three (3) weeks before applying to bare root plantings and do not apply at less than three (3) month intervals.

**NOTE:** Be sure to follow all-use precautions listed in this label unless specifically exempted in the specific crop instructions below.

**FIELD GROWN PROTEA**

Cover any shallow root system exposed by cultivation or erosion prior to application. Apply Double O E-Pro Herbicide to field plantings of 1-2 year Protea nursery stock at a rate of 100 lbs. per acre. For soils with low organic matter levels (0.5-2%), apply Double O E-Pro Herbicide at a rate of 50 lbs. per acre. Reapplication may be made throughout the production cycle at three (3) month intervals.

**SARAN HOUSE GROWN ANTHURIUMS**

When establishing new field stock plantings, bind the foliage of unrooted cuttings with rubber bands or string to prevent the Double O E-Pro Herbicide granules from lodging in the leaf whorls (see USE GUIDELINES AND PRECAUTIONS). Make certain that all plant tissue (leaves and stems) are completely dry prior to application. Using a granular spreader that allows for direct placement of Double O E-Pro Herbicide to the base of plants and avoiding contact with leaf petiole attachments and flowering parts, apply Double O E-Pro Herbicide at a rate of 100 lbs per acre being sure to treat no more than 1/4 (25%) of any saran production unit in a single day. Reapplication may be made at no less than three (3) month intervals.

**NOTE:** To avoid personal injury due to inhalation of Double O E-Pro Herbicide vapors, be sure to provide optimum ventilation to all treated areas.

**DRACAEA FIELD STOCK**

When establishing new field stock plantings, bind the foliage of unrooted cuttings with rubber bands or string to prevent the Double O E-Pro Herbicide granules from lodging in the leaf whorls (see USE GUIDELINES AND PRECAUTIONS). Make certain that all plant tissue (leaves and stems) are completely dry prior to application. Using a granular spreader that allows for direct placement of Double O E-Pro Herbicide to the base of plants and avoiding contact with leaf petiole attachments and flowering parts, apply Double O E-Pro Herbicide at a rate of 100 lbs per acre. Reapplication may be made at no less than three (3) month intervals. Apply Double O E-Pro Herbicide after cuttings have been taken from field stock. Prior to re-application the remaining side shoots (with expanded leaves) must be removed to prevent the granules of Double O E-Pro Herbicide from lodging in the leaf whorls.

**STORAGE AND DISPOSAL**

Do not contaminate water, fertilizer, other pesticides, food or feed by storage and disposal.

**PESTICIDE STORAGE:** Store in a dry place. Protect from water and extreme heat.

**PESTICIDE DISPOSAL:** Waste resulting from the use of this product may be disposed of on site or at an approved waste-disposal facility.

**CONTAINER DISPOSAL:** Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

---

**CONDITION OF SALE AND LIMITATION OF WARRANTY AND LIABILITY**

**NOTICE:** Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of this product should be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Inefficacy or other unintended consequences may result because of such factors as manner of use or application, weather, presence of other materials or other influencing factors in the use of the product, which are beyond the control of Etigra or Seller. All such risks shall be assumed by Buyer and User, and Buyer and User agrees to hold Etigra and Seller harmless for any claims relating to such factors. Etigra warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. This warranty shall not extend to the use of this product contrary to label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to or beyond the control of Seller or Etigra. Etigra MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.

To the extent allowed by state law, neither Etigra nor Seller shall be liable for any incidental, consequential or special damages resulting from the use or handling of this product, THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF ETIGRA AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF ETIGRA OR SELLER, THE REPLACEMENT OF THE PRODUCT.

Etigra and Seller offer this product, and Buyer and User accept it, subject to the foregoing Conditions of Sale and Limitation of Warranty and Liability, which may not be modified except by written agreement signed by a duly authorized representative of Etigra.
