

FOAMER™

Spray Marker/Foaming Agent

*ACTIVE INGREDIENTS:

Sodium alpha-olefin sulfonate and formulation aids	50.0%
Components ineffective as spray adjuvant	50.0%
TOTAL	100.0%

*All ingredients are accepted for use under CFR 40, 180.

KEEP OUT OF REACH OF CHILDREN

WARNING

May be harmful if swallowed
May be harmful in contact with skin
Causes serious eye irritation
Causes skin irritation
Harmful if inhaled

NET CONTENTS: 2.5 Gallons (9.46 Liters)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

BEFORE USING THIS PRODUCT, READ ALL PRECAUTIONS, DIRECTIONS FOR USE, CONDITIONS OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES.

May be harmful if swallowed. May be harmful in contact with skin. Causes serious eye irritation. Causes skin irritation. Harmful if inhaled. Keep product locked up and out of the reach of children. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse. Do not take internally. Avoid contact with or inhalation of spray application mist if present. Do not apply this product in such a manner as to directly expose workers or other persons. If product is being mixed with pesticides and/or spray adjuvants, follow all precautionary statements on the accompanying product(s) labeling. Not for human or animal consumption.

Personal Protective Equipment (PPE): Wear protective eyewear (goggles or face shield), chemical-resistant gloves, long-sleeved shirt and long pants, and shoes plus socks when using this product. Take off any contaminated clothing and wash before reuse.

FIRST AID

IF IN EYES:

- Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- Call a poison control center or doctor for treatment advice.

IF SWALLOWED:

- Call a POISON CENTER or doctor immediately.
- Rinse mouth. Do NOT induce vomiting.
- Do not give anything by mouth to an unconscious person.
- Immediately call a POISON CENTER or doctor.

IF INHALED:

- Move person to fresh air and keep at rest in a position comfortable for breathing if they feel unwell.
- If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a POISON CENTER or doctor for treatment advice.

IF ON SKIN OR HAIR:

- Take off immediately all contaminated clothing. Rinse skin with water or shower.
- Get medical attention if irritation develops or persists.
- Wash contaminated clothing before reuse.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment information.

STORAGE AND DISPOSAL

Contents will freeze below 40°F. To bring back to liquid form, heat slowly. Do not heat over open flame. Do not reuse the container for any purpose.

Store in original container only. Keep container tightly closed, do not allow water to be introduced into the contents of this container. Do not contaminate water sources by runoff from cleaning of equipment, disposal of equipment washwaters or spray waste.

Do not store near heat or open flame.

Do not store with oxidizing agents or ammonium nitrate.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and add rinsate to spray tank, then offer for recycling or reconditioning, or puncture and dispose of according to state and local authorities. If burned, stay out of smoke.

For help in chemical emergencies involving spill, leak, fire or exposure, call toll free 1-800-424-9300

GENERAL INFORMATION

FOAMER™ adjuvant is designed for use in foam generating equipment and/or water based spray mixes where the generation of a thick and stable foam is desirable. These applications include field marking systems and spray adjuvant application.

DIRECTIONS FOR USE

For best performance, other additives or surfactants should not be used in the foam generator. Before using FOAMER™ clean the foam generator and hose lines with fresh water. FOAMER™ contains water softeners which should be adequate under most conditions. Use at a rate of 1 gallon of FOAMER™ per 50 to 100 gallons of water. A suggested starting rate is 1 gallon of FOAMER™ per 50 gallons of water. Rate of use will be dependent upon the water hardness, type of equipment, and persistence required. Softer water generally produces better foam and permits the use of the higher volume of water. For hard waters, use 1 gallon of FOAMER™ per 50 gallons of water. Fill foam generator ¼ full of water and add required amount of FOAMER™. Then add enough water to fill foam generator to ½ full. Do not fill above ½ full as this may impair foam generation. Foam should consist of small tight cells and should not be so dry as to blow away or so wet that it has no body. Reduce air pressure if foam is wet and is coming out as creamy liquid. Alternatively try using less of FOAMER™ per unit volume of water; increase air pressure if foam is too dry or when the volume of mixture in the tank gets low. Foam droppings of 3 inches to 5 inches diameter are recommended for better visibility and longer stability.

SPRAY ADJUVANT USES:

Herbicides, Defoliants, and Dessicants: Use 2 or 3 quarts per 100 gallons of water for maximum foam stability.

Acaracides, Insecticides, Fungicides, Growth Regulants and Foliar Fertilizers: Use 3 to 4 pints per 100 gallons of water. Use higher rate with emulsifiable products or where greater stability is desired.

Aquatics: Use ½ to 1 gallon per 100 gallons of water.

MIXING INSTRUCTIONS

Add measured amount of FOAMER™ to tank after 2/3 of water has been added. The product is water soluble and requires minimum mixing.

CONDITIONS OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale-Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded.

The directions on this label are believed to be reliable and must be followed carefully. Insufficient control of pests and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Helena Chemical Company (the "Company") or seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.

The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Helena Chemical Company's election, one of the following:

1. Refund of the purchase price paid by buyer or user for product bought, or
2. Replacement of the product used

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
