**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

May be harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Keep away from humans, domestic animals, and pets. Keep away from feed or foodstuffs. Wear waterproof gloves when handling bait or retrieving carcasses. Wash thoroughly with soap and water after handling bait.

**ENVIRONMENTAL HAZARDS**

This product is toxic to mammals, birds, and fish. Dogs and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high-water mark. Do not contaminate water when disposing of equipment washwater or rinsewater.

**ENDANGERED SPECIES CONSIDERATIONS**

NOTICE: It is a Federal offense to use any pesticide in a manner that results in the death of an endangered species. Use of this product may pose a hazard to endangered or threatened species. Before applying this product, applicants must obtain information regarding the occurrence of endangered species and use limitations for this product. You may call EPA’s “Endangered Species Hotline” at 1-800-877-3861 to obtain an “Endangered Species” pamphlet for your county. You may also consult your local agricultural extension office or state pesticide lead agency to determine if there are any requirements for use of this product.

Before using this pesticide on any pasture land in the counties listed below, you must obtain the PESTICIDE USE BULLETIN FOR PROTECTION OF ENDANGERED SPECIES for the county in which the product is to be used. The bulletin is available from your county Agricultural Commissioners’ Office. Use of this product in a manner inconsistent with the PESTICIDE USE BULLETIN FOR PROTECTION OF ENDANGERED SPECIES is a violation of Federal laws.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Store only in original closed container in a cool, dry place inaccessible to children and pets. Store separately from fertilizer and away from food, feed, and family products. Store in a location where children cannot reach it and where it will not contaminate water supplies, food, or feed.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste facility.

**CONTAINER DISPOSAL:** Nonfillable container. Offer for recycling if available.

**RESTRICTED USE PESTICIDE**

Due to Hazard to Non-target Species

For Retail sale to and use only by certified Applicators or Persons under Direct Supervision and Only for those Uses Covered by the certified Applicator’s Certification.

**DIRECTIONS FOR USE**

It is a violation of Federal laws to sell this product in a manner inconsistent with its labeling.

**RESTRICTIONS:** Use this product only to control pocket gophers species (Thomomys spp.) in crop and non-crop areas. Subsoil application only. Do not apply bait by any method not specified on this label. Wear gloves when handling bait. Do not apply this product by any method not specified on this label. This product may not be broadcast. Wear waterproof gloves when applying this product. With detergent and hot water, wash all implements used for applying bait. Do not use these implements for mixing, holding, or transferring foods or feed.

**PREPARATION OF BAITS**

A. **HAND APPLICATION**

Location of Runways: To locate gopher’s natural runway, probe about 6” to 12” inches from an active mound beginning on the flat side of the horseshoe-shaped depression. Using an iron bar, a strong stick, the probe from a Probe’ n Funnel kit, a Gopher Bait Applicator bait dispensing probe, or a Gopher Getter Midget bait-dispensing probe, or other suitable implant, probe 6” to 12” inches below the soil level. Resistance on probe will decrease when runway is entered.

APPLICATION DIRECTIONS:

1. **Gopher Bait Applicator Method:** Turn hand probe unit upside down to attach or remove bait bottle which screws into the dispenser. The 1-lb. container for Gopher Getter Type 2 Ag Bait by Wilco may be screwed directly into the dispenser. Otherwise, unscrew the amount of bait needed to the bottle that comes with the Gopher Bait Applicator and screw the bottle into the dispenser. Using probe end, probe around mounds to locate runways (see “Locating Runways” above). Left hand these times to dispose bait to each active runway. Pick up or bury any spilled bait immediately. Makes 2-7 bait sets per burrow system, depending upon the systems apparent length. For best results, this bait must be placed in the gopher’s active runway for four (4) consecutive days or until activity ceases.

2. **HANDADMIN PROBE’N FUNNEL METHOD:** Enlarge probe hole (if necessary) to accommodate baiting. Use gloves and a scooping device (preferably long-handled) to transfer the bait from container to the bait applicator. Insert one-half capful bait into each active runway through probe opening or through the funnel. If using the Probe’ n Funnel kit, take care not to spill bait on the surface. Pick up any spilled bait immediately. Makes 2-7 bait sets per burrow system, depending upon the systems apparent length. For best results, this bait must be placed in the gopher’s active runway for four (4) consecutive days or until activity ceases.

3. **Gopher Getter Midget:** Mix bait in bait container and fill with bait. Replace and tighten cap. Using probe, probe around mounds to locate runways. To dispose bait in each active runway, turn crank 6 full turns, stopping back at the closed position. For best results, this bait must be placed in the gopher’s active runway for four (4) days in a row or until activity ceases.

**POST-APPLICATION DIRECTIONS:**

Using waterproof gloves, collect and burn (where permitted) or bury all visible dead animals. Dispose of offender bait according to “Pesticide Disposal”.

**STORAGE:**

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Store only in original closed container in a cool, dry place inaccessible to children and pets. Store separately from fertilizer and away from food, feed, and family products. Store in a location where children cannot reach it and where it will not contaminate water supplies, food, or feed.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste facility.

**CONTAINER DISPOSAL:** Nonfillable container. Offer for recycling if available.
