Material Safety Data Sheet

**Habitat® Herbicide**

SePRO Corporation
11550 North Meridian Street, Suite 600
Carmel, IN 46032-4565

Irritation/Corrosion:
Skin (rabbit): mildly irritating
Eye (rabbit): Non-irritant
Sensitization (guinea pig): Skin sensitizing effects were not observed in animal studies.

The below information is on the active ingredient, imazapyr.

**Genetic Toxicity:**
No mutagenic effect was found in various tests with microorganisms and mammals.

**Carcinogenicity:**
In long-term studies in rats and mice in which the substance was given by feed, a carcinogenic effect was not observed.

**Reproductive Toxicity:**
The results of animal studies gave no indication of a fertility impairing effect.

**Development:**
No indications of a developmental toxic/teratogenic effect were seen in animal studies.

**12. ECOLOGICAL INFORMATION**

The below information is on the active ingredient, imazapyr.

**Fish Acute LC₅₀ (96h):** Oncorhynchus mykiss ≥100 mg/l

**Aquatic Invertebrate Acute EC₅₀ (48 h):** Daphnia magna >100 mg/l

**Aquatic Plant EC₅₀ (14d):** other swolen duckweed = 0.0228 mg/l

(Produced this product has not been tested. This statement has been derived from products of a similar structure and composition.)

**Other Terrestrial Non-Mammals:**
Mallard duck LC₅₀ > 5,000 ppm
Honey bee LD₅₀ > 100 ug/g

With high probability not acutely harmful to terrestrial organisms.

**Degradability/Persistence/Biological/Abiological Degradation:**
Not readily biodegradable (by OECD criteria).

**13. DISPOSAL CONSIDERATIONS**

**Waste Disposal of Substance:**
Pesticide wastes are regulated. Improper disposal of excess pesticide, spray mix or rinse is a violation of federal law. If pesticide wastes cannot be disposed of according to label instructions, contact the State Pesticide or Environmental Control Agency or the Hazardous Waste disposal authorities for approved alternative procedures such as container recycling. Recommend crushing, puncturing or other means to prevent unauthorized use of used containers.

**RCRA:** This product is not regulated by RCRA.

**14. TRANSPORT INFORMATION**

**Reference Bill of Lading.**

**15. REGULATORY INFORMATION**

**NOTICE:** The information herein is presented in good faith and believed to be accurate as of the effective date shown above. However, no warranty, express or implied, is given. Regulatory requirements are subject to change and may differ from one location to another; it is the buyer’s responsibility to ensure that its activities comply with federal, state or provincial, and local laws.

**U.S. Regulations**
Registration Status:
Chemical TSCA, US: blocked / not listed
Crop Protection TSCA, US: released / exempt

**EPCRA 311/312 (Hazard Categories):**
Acute

**State Regulations**
CA Prop. 65: There are no listed chemicals in this product.

**16. OTHER INFORMATION**

**MSDS STATUS:**
Creation Date - 10/18/2010

(BASF012810)

The information in this Material Safety Data Sheet relates to this specific material. It may not be valid for this material if used in combination with any other materials or in any process. It is the user’s responsibility to satisfy themselves as to the suitability and completeness of this information for their own particular use.

THE INFORMATION HEREIN IS GIVEN IN GOOD FAITH, BUT NO WARRANTY, EXPRESS OR IMPLIED, IS MADE. CONSULT SEPRO CORPORATION FOR FURTHER INFORMATION.

Material Safety Data Sheet

**Habitat® Herbicide**

SePRO Corporation
11550 North Meridian Street, Suite 600
Carmel, IN 46032-4565

**1. PRODUCT AND COMPANY IDENTIFICATION**

**PRODUCT:** Habitat® Herbicide

**Molecular Formula:** C13H16N3 O3 (C2H3)(CH2) N

**Chemical Family:** Imidazoline derivative

**Synonyms:** Isoopropylamine salt of imazapyr

**COMPANY IDENTIFICATION:**
SePRO Corporation
11550 North Meridian Street, Suite 600
Carmel, IN 46032-4565

**Information Phone:** 317-580-8282 (Mon - Fri, 8 am to 5 pm EST)

**2. HAZARDS IDENTIFICATIONS**

**EMERGENCY OVERVIEW**

**CAUTION:**
- Keep out of reach of children.
- Avoid contact with the skin, eyes and clothing.
- Avoid inhalation of mist/vapors.

See Product Label for additional precautionary statements.

**State of Matter:** Liquid

**Color:** blue, clear

**Odor:** ammonia-like

**Potential Health Effects**

**Primary Routes of Exposure:** Routes of entry for solids and liquids include eye and skin contact, ingestion and inhalation. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquified gases.

**Acute Toxicity:**
Relatively nontoxic after single ingestion. Slightly toxic after short-term skin contact. Relatively nontoxic after short-term inhalation.

**Irritation/Corrosion:** May cause slight but temporary irritation to the eyes. May cause slight irritation to the skin.

**Sensitization:** Skin sensitizing effects were not observed in animal studies.

**Chronic toxicity:**
Skin sensitizing effects were not observed in animal studies.

**Potential Environmental Effects**

**Aquatic Toxicity:** There is a high probability that the product is not acutely harmful to fish. There is a high probability that the product is not acutely harmful to aquatic invertebrates. Acutely harmful for aquatic plants.

**Terrestrial Toxicity:** With high probability not acutely harmful to terrestrial organisms.

**3. COMPOSITION / INFORMATION ON INGREDIENTS**

**Chemical Name**
Isopropylamine salt of imazapyr

**% by Wt.**
28.7%

**Proprietary ingredients**
71.3%

**4. FIRST AID MEASURES**

**General Advice:**
First aid providers should wear personal protective equipment to prevent exposure. Remove contaminated clothing. Allow person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or physician for treatment advice. Have the product container or label with you when calling a poison control center or doctor going for treatment.

**If Inhaled:**
Remove the affected individual into fresh air and keep the person calm. Assist in breathing if necessary.

**If on Skin:**
Rinse skin immediately with plenty of water for 15 - 20 minutes.

**If in Eyes:**
Hold eyes open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing.

**If Swallowed:**
Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do by a poison control center or doctor. Never induce vomiting or give anything by mouth if the victim is unconscious or having convulsions.

**Note to Physician**

**Antidote:**
No known specific antidote.

**Treatment:**
Treat symptomatically.

**5. FIRE FIGHTING MEASURES**

**Flash Point:** Non-flammable.

**Self-Ignition Temperature:**
Not self-igniting.

**Suitable Extinguishing Media:**
Foam, dry extinguishing media, carbon dioxide, water spray.
7. HANDLING AND STORAGE

Handling Information

General Advice: Recommendations are for Manufacturing, Commercial Blending and Packaging Workers.

Pesticide applicators and workers must refer to the Product Label and Directions for Use attached to the product for Agricultural Use Requirements in accordance with the EPA Worker Protection Standard 40 CFR part 170.

- Ensure adequate ventilation. Provide good ventilation of working area (local exhaust ventilation if necessary). Keep away from sources of ignition. No smoking. Keep container tightly sealed. Protect contents from the effects of light. Protect against heat. Protect from air. Handle and open container with care. Do not open until ready to use. Once container is opened, content should be used as soon as possible. Avoid aerosol formation. Avoid dust formation. Provide means for controlling leaks and spills. Do not return residues to the storage containers. Follow label warnings even after container is emptied. The substance/product may be handled only by appropriately trained personnel. Avoid all direct contact with the substance/product. Avoid contact with the skin, eyes and clothing. Avoid inhalation of dusts/mists/vapors. Wear suitable personal protective clothing and equipment.

Protection Against Fire and Explosion: The relevant fire protection measures should be noted. Fire extinguishers should be kept handy. Avoid all sources of ignition; heat, sparks, open flame. Sources of ignition should be kept well clear. Avoid extreme heat. Keep away from oxidizable substances. Electrical equipment should conform to national electric code. Ground all transfer equipment property to prevent electrostatic discharge. Electrostatic discharge may cause ignition.

Storage Information

General Advice: Keep only in the original container in a cool, dry, well-ventilated place away from ignition sources, heat or flame. Protect containers from physical damage. Protect against contamination. The authority permits and storage regulations must be observed.

Storage Incompatibility: General advice: Segregate from incompatible substances. Segregate from foods and animal feeds. Segregate from textiles and similar materials.

Temperature Tolerance: Protect from temperatures below 0°C. Changes in the properties of the product may occur if substance/product is stored below indicated temperature for extended periods of time.

Protect from temperatures above 40°C. Changes in the properties of the product may occur if substance/product is stored above indicated temperature for extended periods of time.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Users of a pesticidal product should refer to the product label for personal protective equipment requirements.

Advice on System Design: Whenever possible, engineering controls should be used to minimize the need for personal protective equipment.

9. PHYSICAL AND CHEMICAL PROPERTIES

Form: liquid

Odor: ammonia-like, faint odor

Color: blue, clear

pH Value: 6.6 – 7.2

10. STABILITY AND REACTIVITY

Substances to avoid: Oxidizing agents, reducing agents.

Hazardous reactions: The product is chemically stable.

Hazardous Decomposition Products: No hazardous decomposition products if stored and handled as prescribed/indicated. Prolonged thermal loading can result in products of degradation being given off.

Thermal Decomposition: Possible thermal decomposition products: carbon monoxide, carbon dioxide, nitrogen oxide, nitrogen dioxide. Stable at ambient temperature. If product is heated above decomposition temperature toxic vapors/hazardous fumes may be released.

Corrosion to Metals: Corrosive effect on mild steel brass.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity

Oral (LD₅₀, rat): >5,000 mg/kg

Inhalation (LC₅₀, rat - 4hr, aerosol): >5.3 mg/L (OECD Guideline 403)

Dermal (LD₅₀, rat): >2,000 mg/kg
**Habitat® Herbicide**

SePRO Corporation 11550 North Meridian Street, Suite 600, Carmel, IN 46032-4565

**Personal Protective Equipment**

RECOMMENDATIONS FOR MANUFACTURING, COMMERCIAL BLENDING AND PACKAGING WORKERS:

**Respiratory Protection:** Wear respiratory protection if ventilation is inadequate. Wear a NIOSH-certified (or equivalent) TC23C Chemical/Mechanical type filter system to remove a combination of particles, gas and vapors. For situations where the airborne concentrations may exceed the level for which an air purifying respirator is effective, or where the levels are unknown or Immediately Dangerous to Life or Health (IDLH), use NIOSH-certified full facepiece pressure demand self-contained breathing apparatus (SCBA) or a full facepiece pressure demand supplied-air respirator (SAR) with escape provisions.

**Hand Protection:** Chemical-resistant protective gloves. Protective glove selection must be based on the user’s assessment of the workplace hazards.

**Eye Protection:** Safety glasses with side-shields. Tightly fitting safety goggles (chemical goggles). Wear face shield if splashing hazard exists.

**Body Protection:** Body protection must be chosen depending on activity and possible exposure, e.g. head protection, apron, protective boots, chemical protective suit.

**General Safety and Hygiene Measures:**

**Substances to avoid:** Oxidizing agents, reducing agents.

**Hazardous reactions:** The product is chemically stable.

**Hazardous Decomposition Products:** No hazardous decomposition products if stored and handled as prescribed/indicated. Prolonged thermal loading can result in products of degradation being given off.

**Thermal Decomposition:** Possible thermal decomposition products: carbon monoxide, carbon dioxide, nitrogen oxide, nitrogen dioxide. Stable at ambient temperature. If product is heated above decomposition temperature toxic vapors/hazardous fumes may be released.

**Corrosion to Metals:** Corrosive effect on mild steel brass.

**Oxidizing Properties:** Not fire-propagating. Not an oxidizer.

**10. STABILITY AND REACTIVITY**

**Conditions to avoid:**

**11. TOXICOLOGICAL INFORMATION**

**Acute Toxicity**

- Oral (LD₅₀, rat): >5,000 mg/kg
- Inhalation (LC₅₀, rat - 4hr, aerosol): >5.3 mg/L (OECD Guideline 403)
- Dermal (LD₅₀, rat): >2,000 mg/kg
### 1. PRODUCT AND COMPANY IDENTIFICATION

**PRODUCT:** Habitat® Herbicide

**Molecular Formula:** C(13) H(15) N(3) O(3), C(2) H(9) N

**Chemical Family:** imidazole derivative

**Synonyms:** Isopropylamine salt of imazapyr

**COMPANY IDENTIFICATION:** SePRO Corporation
11550 North Meridian Street, Suite 600
Carmel, IN 46032-4565

**EPA Registration Number:** 241-580-8282

**Information Phone:** 317-580-8282 (Mon - Fri, 8 am to 5 pm EST)

### 2. HAZARDS IDENTIFICATIONS

**EMERGENCY OVERVIEW**

**CAUTION:**
- Keep out of reach of children.
- Avoid contact with the skin, eyes and clothing.
- Avoid inhalation of mist/spray.

**See Product Label for additional precautionary statements.**
