PRECAUTIONARY STATEMENTS

CAUTION

BEFORE USING THIS PRODUCT, READ ALL PRECAUTIONS, DIRECTIONS FOR USE, CONDITIONS OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES.

Do not store with food, feed, or other material to be used or consumed by humans or animals. Store in a cool, dry area. Do not contaminate water supplies, lakes, streams or ponds with this product.

WHAT TO DO IN CASE OF CONTACT:

IF IN EYES: Flush eyes with water for at least 15 minutes. If irritation develops, seek medical treatment.

IF ON SKIN: Wash affected area with soap and water. If irritation persists, seek medical treatment.

IF SWALLOWED: Drink 1 to 2 glasses of water to dilute. Seek medical attention.

IF INHALED: Move to fresh air. If irritation persists, seek medical treatment.

GENERAL INFORMATION

Hydra-Blume™ is a soil applied water soluble powder designed to be most effective on any crop producing a fruit for harvest such as cotton, tomato, pepper, cucumber, watermelon, cantaloupe, strawberry, grape, and tree fruit, among others.

Hydra-Blume™ can be applied to all soil types and pH ranges and to all watering solutions such as transplant drench, nursery soaks, or hydroponic reservoirs.

Hydra-Blume™ is compatible with almost all fertilizers and nutrients except those high in calcium such as CAN 17. If unfamiliar with a certain mix combination, be sure to check with your Helena Chemical Company representative for compatibility and/or perform a jar test by mixing a small amount of each product in the same ratio for application to the soil. Products containing humic acids, such as **Hydra-Blume™**, may aid in the uptake of micronutrients. Fertilizers or nutrients with low pH may cause the humic fraction in **Hydra-Blume™** to separate and fall out. It will be necessary to agitate the mix to obtain an even distribution of the humic fraction with no loss of efficacy.

SUGGESTED DIRECTIONS

APPLICATION: First application of 1 – 3 gal. of **Hydra-Blume™** per acre should be applied just prior to or at first bloom. Multiple applications of 1 gal. will optimize results. Repeat applications should be made every 2-4 weeks depending on fruit set. In some recurring blooming crops such as strawberries, **Hydra-Blume™** can be applied season long every two to four weeks. **Hydra-Blume™** may be water run, side dressed, or mixed with soil applied liquid nutrients.

TANK-MIX WITH NUTRIENTS: Use 1 – 3 gal. of **Hydra-Blume™** per acre. Mix with liquid fertilizer, agitate until homogenous, and then apply.

Disclaimer: Always refer to the label on the product before using Helena or any other product.

SPRINKLER OR DRIP IRRIGATION: **Hydra-Blume™** works well in irrigation applications. It is advisable to inject downstream of any irrigation filter system after pushing the product through a 50 mesh or larger screen filter. **DO NOT PASS THROUGH A SAND MEDIA FILTER.** **Hydra-Blume™** is not corrosive to irrigation systems.

CONDITIONS OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale - Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded.

This label is believed to be reliable and should be followed carefully. Injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Helena Chemical Company (the "Company") or seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.

The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Helena Chemical Company's election, one of the following:

1. Refund of the purchase price paid by buyer or user for product bought, or
2. Replacement of the product used

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
