ACTIVE INGREDIENT:

Soybean Oil 93%

OTHER INGREDIENTS

..... 7%

TOTAL

100.0%

General Information

NATUR'L OIL is a unique blend of special emulsifiers and 93% vegetable oil. It is a non-ionic surfactant. It is compatible with most herbicides, insecticides, fungicides, growth regulators and defoliant.

NATUR'L OIL may be used as a non-ionic surfactant replacing petroleum based crop oils, as an anti-evaporant mixed with water (6% to 15% v/v) or as the sole diluent in compliance with label directions.

NATUR'L OIL can be used in preplant, pre-emerge or post-emerge herbicide sprays to maximize weed control.

NATUR'L OIL reduces pesticide volatilization and photodecomposition, thereby allowing effective incorporation in the shallow one to two inch germination zone. **NATUR'L OIL** increases leaf penetration and translocation of herbicides.

NATUR'L OIL can be used directly as a diluent for synthetic pyrethroids labeled for ULV application with oil. Spray volumes as low as one quart per acre are commonly used on vegetables and field crops.

NATUR'L OIL enhances the activity of fungicides in conventional spray volumes and has the advantage of little or no phytotoxicity. It may be used with fungicides on fruit trees, vines, vegetable and field crops.

NATUR'L OIL can be applied with defoliant and desiccants to obtain more thorough wetting and absorption. Chlorate defoliant, the organophosphates and Paraquat are standard harvest aids that may be applied with **NATUR'L OIL** to accelerate leaf drop to make harvesting easier, cleaner and faster.

NATUR'L OIL aids effective herbicide application with fertilizers. Use **NATUR'L OIL** with soil applied fertilizers to reduce herbicide evaporation and photodecomposition during application and tillage and to eliminate the need for deep incorporation. **NATUR'L OIL** helps control dust in dry blends.

NATUR'L OIL promotes uptake of foliar fertilizers by enhancing the absorption, translocation and persistence of nutritionals.

RECOMMENDATIONS FOR USE

NATUR'L OIL may be used on the following crops:

Vegetable Crops: Berries, Cabbage, Carrots, Cauliflower, Celery, Cucumbers, Lettuce, Melons, Peppers, Potatoes, Radishes, Sweet Corn, Tomatoes and Vines.

Field Crops: Alfalfa, Corn, Cotton, Oats, Peanuts, Rape, Rice, Rye, Sorghum, Soybeans, Sugarbeets, Tobacco and Wheat.

Tree Crops: Almonds, Apples, Apricots, Cherries, Citrus, Filberts, Nectarines, Peaches, Pears, Pecans, and Walnuts.

Turf Grasses & Ornaments: **NATUR'L OIL** may be used with any pesticide or nutritional where persistence and weatherability are desirable.

DIRECTIONS FOR USE

LIQUID FORMULATION: Premix 1 quart **NATUR'L OIL** per acre (2.3 liters per hectare) with pesticide or foliar fertilizer. Then mix with enough water to provide the volume required for application.

WETTABLE POWDER FORMULATIONS: Mix wettable powder with sufficient water for thorough dispersion. Then add one quart **NATUR'L OIL** per acre (2.3 liters per hectare) and mix well. Then add enough water to provide the volume required for application.

FERTILIZERS: Mix 3 pints **NATUR'L OIL** per acre (3.4 liters per hectare) with herbicides. Disperse in liquid or suspension fertilizers or impregnate dry blended fertilizers.

DORMANT ORCHARD SPRAYS: (100-500 gallons per acre; 9-4.5 kiloliters per hectare spray solution): Use 2% of total amount of spray solution.

CAUTION:

Keep Out of Reach of Children

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat and/ or skin. Avoid contact with eyes, skin and clothing. **IF SWALLOWED:** Induce vomiting by sticking finger down throat. Never give anything by mouth to an unconscious person. Get medical attention. **IF IN EYES:** Wash eyes with plenty of clear water for at least 15 minutes. Get medical attention.

Storage Instructions

Store a maximum of three pails high per pallet. Do not stack pallets.

California registration number: 57538-50001- AA

CONDITIONS OF SALE: 1. Seller warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one, other than the officers of Seller, is authorized to make any warranty, guarantee or direction concerning this product. 2. Because the time, place, rate of application and other conditions of use are beyond Seller's control, Seller's liability from handling, storage and use of this product limited to replacement of product or refund of purchase price.
