PRECAUTIONARY STATEMENTS

First Aid
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.

Personal Protective Equipment (PPE)
Applicators and other handlers must wear:
• Long-sleeved shirt and long pants
• Waterproof gloves
• Shoes plus socks
• Waterproof eyewear or face shield

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables are provided, use detergent and hot water. Keep and wash PPE separately from other laundry.

Engineering Controls
When handlers use closed systems, enclosures, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 170.240(d)-(4-6)), the handler PPE requirements may be reduced or modified as specified in the WPS. IMPORTANT: When reduced PPE is worn because a closed system is being used, handlers must be provided all PPE specified above for “applicators and other handlers” and have such PPE immediately available for use in an emergency, such as a spill or equipment breakdown.

User Safety Recommendations
Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
• Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product. Wash the outside of the gloves before removing them. As soon as possible, wash thoroughly and change into clean clothing.

Environmental Hazards
For terrestrial uses: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash waters or rinsates.

DIRECTIONS FOR USE
Read all directions before using

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Agricultural Use Requirements
Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 190. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries and greenhouses and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about the personal protective equipment (PPE) and restricted-entry interval. The requirements in this box apply only to uses of this product that are covered by the Worker Protection Standard. No restricted-entry interval is required for this product.

For use in suppressing grasshoppers and Mormon Crickets.
Active Ingredient: Nosema locustae Canning,…….8.65% 
Inert Ingredients:………………………….99.95%
Total:…………………………100.00%
Contains a billion viable microsporidial spores per 454 grams (1.0 pound)
Net contents:________       Date Formulated:________     Lot#:________

General Information
NOLO BAIT™ is for use in suppressing grasshoppers and Mormon Crickets. It contains a microsporidial pathogen of grasshoppers. NOLO BAIT™ infects the fat bodies of most species of grasshoppers and some crickets. Infection and death to the grasshoppers from the insect pathogen begins upon ingestion of the bait by the grasshopper. Grasshopper death will begin in 3-6 weeks. The insect pathogen multiplies in infected grasshopper and will pass from grasshopper to grasshopper and can remain active for several years.

Use Restrictions
Chemigation: Do not apply this product through any type of irrigation system.

Application Procedures: Do not apply product in a manner that would allow it to come into contact with any food commodities. Strictly follow the Application Instructions.

Application Instructions
Use NOLO BAIT™ when densities reach eight (8) or more grasshoppers per square yard. Grasshoppers are most effectively suppressed when they are young. For best results, apply NOLO BAIT™ when grasshoppers are ½ to ¾ inch tall.

Rangeland
Apply NOLO BAIT™ to rangeland at a minimum rate of 1.0 pound per acre. Apply by hand, seed spreader or airplane. Concentrate the application in areas of heaviest grasshopper infestation. Where a quick knockdown of high populations is needed, mix NOLO BAIT™ with other insecticide baits for grasshopper control.

Cropland
Apply NOLO BAIT™ at a minimum rate of 1.0 pound per acre by hand, seed spreader, turbine spreader or airplane ONLY in accordance with any of the following good agricultural practices:
• Applications to fields where no above-ground harvestable food commodities are present (usually pre-bloom).
• Applications to fields that occur after the harvedted crop has been removed.

Concentrately apply in areas of greatest grasshopper infestation. Where a quick knockdown of high populations is needed, mix NOLO BAIT™ with other insecticide baits for grasshopper control.

Storage and Disposal
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage
Store in original container, in a cool, dry location. Optimum storage temperature is 42° F. For best results, use before (13 weeks after formulation).

Container Handling
Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment then offer for recycling if available, or dispose of empty bag in a sanitary landfill or by incineration. Do not burn, unless allowed by state and local ordnances.

WARRANTY
The seller warrants only that the goods shall arrive viable. This warranty is expressly made in lieu of all warranties, express or implied, including the warranties of merchantability and fitness for use. In the event of a breach of the warranty stated herein, buyer shall have as a sole remedy a replacement of the goods sold upon giving proper notice to Seller. To the extent permitted by applicable law, no claim shall be made for damages, nor may any recovery be had for incidental or consequential damages.
