Page 2 of 4

- Extinguishing Media** : Use water fog, foam, dry chemical or carbon dioxide. Foam or dry chemical are preferred to prevent environmental damage from excessive water runoff.
- Specific Hazards Arising from the Chemical** : Thermal decomposition may produce toxic fumes.
- Special Fire Fight Proc** : Wear self-contained breathing apparatus and full protective clothing. Evacuate area of all unnecessary personnel and fight fire from a safe distance upwind.

### 6. Accidental Release Measures

- Personal Precautions** : Isolate area and keep unnecessary and unprotected personnel from entering. Wear suitable personal protective equipment and clothing.
- Protective Equipment** : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Respiratory protection not normally needed. Eyewash and emergency shower should be available in work area.
- Emergency Procedures** : Control spill at the source and prevent material from entering soil, sewers, waterways or low areas. Large spills to soil or similar surfaces may require removal and disposal of topsoil. Contain contaminate water/firefighting water.
- Methods and Materials for Containment and Cleanup** : Avoid creating dust during cleanup. Sweep, scoop or shovel spilled material and place into suitable closed containers for disposal. After decontamination, spill area can be washed with water. Collect washwater for approved disposal. Decontaminate tools and equipment following cleanup.

### 7. Handling and Storage

- Precautions for Safe Handling** : Avoid contact with eyes, skin or clothing. Avoid breathing vapors or spray mist. Keep out of reach of children or domestic animals. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Conditions for Safe Storage** : Always store pesticides in the original container. Store away from food, pet food, feed, seed, fertilizers, veterinary supplies and the home. The storage area must be locked, dry, cool, well-lit and well-ventilated. Protect pesticide containers from storage where temperatures exceed 115 Degrees F. frequently.

### 8. Exposure Controls / Personal Protection

- TLV/PEL** : No TLV or PEL established for active ingredient, acetamiprid.
- Appropriate Engineering Controls** : General and/or local exhaust should be sufficient.
- Personal Protective Equipment** : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Respiratory protection not normally needed. Eyewash and emergency shower should be available in work area.
