Silverfish, Spiders, and Moths: Treat horizontal areas such as behind baseboards, stirs, cabinets, meter boxes, door frames, corners of rooms and window sills. Open and thoroughly ventilate the treated area before mopping. Bed Bug: Take bed apart, treat parts and党史 (including wall and equipment voids), calculate the void's cubic area and treat at the rate of 3 – 5 sec/3 ft³. Apply according to specific directions for pest(s) to be treated.

Precautionary Statements
Hazard to Humans and Domestic Animals: This product contains pesticide ingredients harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear long-sleeved shirt and long pants, shoes, and socks. Personal Protective Equipment (PPE): Applications and other handlers must wear the following: long-sleeved shirt, long pants, shoes, and socks. In addition to those above, PPE applicators applying this product as a spray in an enclosed area must wear a half-face, full-face or head-style NIOSH approved respirator with a P100, R95, or R100 filter with approved protective eyewear (such as goggles or welding glasses) and approved gloves. Do not apply this product with exposed skin. Do not apply to classrooms when children are present. When used in food handling establishments, children should not enter the treated area until sprays have dried. When used in food handling and processing facilities, wash off all treated surfaces before use. Keep treated area closed for 15 minutes. Open and thoroughly ventilate before reoccupying.

Environmental Hazards: This product is toxic to aquatic organisms, including fish and invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for runoff for several months or more after application. Do not apply directly to water, to areas where water surface is present, or to vegetable areas below the mean high water mark. This product is highly toxic to birds upon exposure to direct treatment in blanched crops or weeds. Do not apply this product or allow it to drift to blanched crops or weeds while birds are foraging in the treatment area.

Physical or Chemical Hazards: This product contains petroleum distillate. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear: Long-sleeved shirt and long pants, socks, and shoes. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause hazardous chemical reaction may occur.
