SECTION 1. CHEMICAL PRODUCT AND COMPANY INFORMATION

Product Name: SCALA™ BRAND SC FUNGICIDE  
MSDS Number: 102000011440  
EPA Registration No.: 264-788

Bayer CropScience  
2 T.W. Alexander Drive  
Research Triangle PK, NC 27709  
USA

For MEDICAL, TRANSPORTATION or other EMERGENCY call: 1-800-334-7577 (24 hours/day)  
For Product Information call: 1-866-99BAYER (1-866-992-2937)

SECTION 2. COMPOSITION/INFORMATION ON INGREDIENTS

SECTION 3. HAZARDS IDENTIFICATION

NOTE: Please refer to Section 11 for detailed toxicological information.

Emergency Overview:
Caution! Harmful if swallowed. Avoid breathing spray mist. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling.

Physical State: liquid suspension
Odor: slight
Appearance: off-white
Routes of Exposure: Ingestion, Inhalation, Eye contact, Skin contact

Immediate Effects:

Eye: May cause slight irritation. Avoid contact with eyes.
Skin: Avoid contact with skin and clothing.
Ingestion: Harmful if swallowed. Do not take internally.
Inhalation: Avoid breathing spray mist.
SECTION 4. FIRST AID MEASURES

General
When possible, have the product container or label with you when calling a poison control center or doctor or going for treatment.

Eye
Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a physician or poison control center immediately.

Skin
Take off contaminated clothing and shoes immediately. Wash off immediately with plenty of water for at least 15 minutes. Call a physician or poison control center immediately.

Ingestion
Call a physician or poison control center immediately. Rinse out mouth and give water in small sips to drink. DO NOT induce vomiting unless directed to do so by a physician or poison control center. Never give anything by mouth to an unconscious person. Do not leave victim unattended.

Inhalation
Move to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a physician or poison control center immediately.

Notes to Physician Treatment
There is no specific antidote. Appropriate supportive and symptomatic treatment as indicated by the patient's condition is recommended.

SECTION 5. FIRE FIGHTING MEASURES

Flash point
No flash point - Determination conducted up to the boiling point.

Autoignition Temperature
The product is not self-ignitable.

Explosiveness
Not explosive.

Suitable Extinguishing Media
Dry powder, Carbon dioxide (CO2), Foam, Water spray

Fire Fighting Instructions
Fight fire from upwind position. Keep out of smoke. Cool closed containers/ tanks exposed to fire with water spray. Do not allow run-off from fire fighting to enter drains or water courses.

Firefighters should wear NIOSH approved self-contained breathing apparatus and full protective clothing.
SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions
Keep unauthorized people away. Isolate hazard area. Avoid contact with spilled product or contaminated surfaces.

Methods for Cleaning Up
Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder). Collect and transfer the product into a properly labelled and tightly closed container. Clean contaminated floors and objects thoroughly, observing environmental regulations.

Additional Advice
Use personal protective equipment. Do not allow to enter soil, waterways or waste water canal.

SECTION 7. HANDLING AND STORAGE

Handling Procedures
Maintain exposure levels below the exposure limit through the use of general and local exhaust ventilation. Handle and open container in a manner as to prevent spillage.

Storing Procedures
Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

Work/Hygienic Procedures
Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, using the toilet or applying cosmetics.

Remove Personal Protective Equipment (PPE) immediately after handling this product. Before removing gloves clean them with soap and water. Remove soiled clothing immediately and clean thoroughly before using again. Wash thoroughly and put on clean clothing.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

General Protection
Follow all label instructions. Train employees in safe use of the product.

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and warm/tepid water. Keep and wash PPE separately from other laundry.

Eye/Face Protection
Tightly fitting safety goggles

Hand Protection
Chemical-resistant gloves made of waterproof material such as neoprene, butyl rubber, barrier laminate or nitrile rubber.
Body Protection
Wear long-sleeved shirt and long pants and shoes plus socks.

Respiratory Protection
When respirators are required, select NIOSH approved equipment based on actual or potential airborne concentrations and in accordance with the appropriate regulatory standards and/or industry recommendations.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
off-white

Physical State
liquid suspension

Odor
slight

Density
1.10 g/cm³ at 20 °C

Water solubility
dispersible

Viscosity
500 - 1,000 mPa.s

SECTION 10. STABILITY AND REACTIVITY

Conditions to Avoid
Freezing

Incompatibility
Organic materials

Hazardous Reactions
No hazardous reactions when stored and handled according to prescribed instructions. Stable under recommended storage conditions.

SECTION 11. TOXICOLOGICAL INFORMATION

Only acute toxicity studies have been performed on the formulated product. The non-acute information pertains to the technical-grade active ingredient, pyrimethanil.
Acute Oral Toxicity
male rat: LD50: > 5,000 mg/kg
female rat: LD50: 4,505 mg/kg

Acute Dermal Toxicity
rat: LD50: > 5,000 mg/kg

Acute Inhalation Toxicity
rat: LC50: > 4.41 mg/l
Exposure time: 4 h
Determined in the form of liquid aerosol.
Highest attainable concentration.
No deaths
rat: LC50: > 17.64 mg/l
Exposure time: 1 h
Determined in the form of liquid aerosol.
Extrapolated from the 4 hr LC50.

Skin Irritation
rabbit: No skin irritation.

Eye Irritation
rabbit: Minimally irritating.

Sensitization
guinea pig: Non-sensitizing.

Chronic Toxicity
Pyrimethanil caused liver, urinary bladder and/or thyroid (secondary effect) effects in chronic dietary studies in rats, mice and dogs.

Assessment Carcinogenicity
Pyrimethanil was not carcinogenic in a chronic feeding study in mice. In a chronic feeding study, high-dose rats had increased incidence of benign thyroid tumors, secondary to disruption of thyroid-pituitary homeostasis. EPA classified pyrimethanil as a Group C (possible human carcinogen) chemical based on this well-known, threshold-mediated, non-genotoxic mechanism of carcinogenesis. The Agency used a non-linear methodology approach for determining the Margin of Exposure (MOE) for the estimation of human cancer risk because doses below this threshold did not result in thyroid tumors. Therefore, EPA has a reasonable certainty that no harm will result from exposure to residues of pyrimethanil.

ACGIH
None.
NTP
None.
IARC
None.
OSHA
None.

Reproductive & Developmental Toxicity
REPRODUCTION: Pyrimethanil was not a reproductive toxicant in a two-generation study in rats.

DEVELOPMENTAL TOXICITY: Pyrimethanil was not a primary developmental toxicant in rats and rabbits. Developmental effects were observed but were
considered secondary to maternal toxicity.

**Neurotoxicity**

Pyrimethanil was not neurotoxic in acute (oral gavage) and subchronic (diet) neurotoxicity screening studies in rats. Transient neurobehavioral effects were observed in the acute study with no correlating morphological changes in the neural tissues.

**Mutagenicity**

Pyrimethanil is not mutagenic or genotoxic based on in vitro and in vivo mutagenicity studies.

### SECTION 12. ECOLOGICAL INFORMATION

**Environmental Precautions**

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate surface or ground water by cleaning equipment or disposal of wastes, including equipment wash water. Drift and runoff from treated areas may be hazardous to aquatic organisms in adjacent sites.

### SECTION 13. DISPOSAL CONSIDERATIONS

**General Disposal Guidance**

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**Container Disposal**

Triple rinse containers. Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or incineration, or if allowed by State and Local authorities, by burning. If burned, stay out of smoke.

### SECTION 14. TRANSPORT INFORMATION

**DOT CLASSIFICATION:**

Not regulated for Domestic Surface Transportation

**FREIGHT CLASSIFICATION:**

Insecticides or Fungicides N.O.I.; other than poison

### SECTION 15. REGULATORY INFORMATION

**EPA Registration No.**
