CAUTION

KEEP OUT OF REACH OF CHILDREN
Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Do not eat, drink, use tobacco or chew gum while using this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. In addition, follow precautionary statements on all products used with this material. Clean affected clothing, shoes, and protective equipment before reuse.

Personal Protective Equipment: Wear chemical-resistant eyewear and gloves, long-sleeve shirt and pants and shoes and socks.

Principal Functioning Agents:
Modified vegetable oil, petroleum oil, alkyl phenol ethoxylate ............ 99.7%
Constituents ineffective as spray adjuvants ......................... 0.3%
TOTAL ............................................ 100%
All ingredients are exempt from tolerance under 40 CFR 180.

FIRST AID
Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF SWALLOWED: Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

Note to physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

GENERAL INFORMATION
SEDATE™ MAX is a drift control and deposition management tool that is designed to adjust and then maintain solution droplet formation for the best spray pattern that will hit the target and stay there. SEDATE™ MAX reduces both rebound runoff and diffusion away from the intended surface and significantly improves delivery of the active ingredient. Field conditions, the type of pesticide, and equipment specifications can vary the degree of drift hazard. SEDATE™ MAX will control and reduce drift but not eliminate it.

Atomization testing has shown that when CP™11TT type nozzles are used with SEDATE™ MAX in aerial spray applications a more uniform droplet size range is created. SEDATE™ MAX is compatible with a wide range of pesticides including glyphosate and similar active ingredients. SEDATE™ MAX adjusts the spray pattern by modifying the internal structure of the droplets and does not change resistance to fluid motion during the spray procedure.

DIRECTIONS FOR USE
NOT FOR AQUATIC USE
Review the directions on the pesticide label and follow them. The directions that follow should be used if the pesticide label does not specify the use rate for a deposition aid and drift control agent. SEDATE™ MAX should be used only if a deposition aid and drift control agent are allowed or not excluded on the label.

SEDATE™ MAX may be applied through direct injection systems when used with the amount of water required by the irrigation system manufacturer. Do not pre-mix with pesticides, other adjuvants or nutrients before mixing with water.

Add SEDATE™ MAX to the spray solution tank last.

NOTE: When combining new or unfamiliar components in any tank mix, the applicator should conduct phytotoxicity and jar tests to assure compatibility and avoid damage to non-targeted species.

APPLICATION RATES
Aerial and Ground Spraying
Herbicides and fungicides
Suggested Rates Per Acre
4 to 6 ounces of SEDATE™ MAX
Insecticides
2 to 4 ounces of SEDATE™ MAX

NOTE: Do not exceed 1% v/v of the spray solution.

STORAGE AND DISPOSAL
Storage: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product. For optimal storage, store between 40° and 90° F.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

Conditions of Sale and Warranty Limitation: The Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of West Central Distribution, LLC or the seller. All such risks shall be assumed by the buyer. West Central Distribution, LLC warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks referred to above. West Central Distribution, LLC makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty. In no case shall West Central Distribution, LLC or the seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. West Central Distribution, LLC and the seller offer this product, and the Buyer and the User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of West Central Distribution, LLC.
