

Report 14-Apr-15 Date

Page 1 of 4

Identification

Product Name : SILWET L-77

Synonyms: None

Product Use: Organosilicone Surfactant Manufacturer/Supplier: Helena Chemical Company

Address: 225 Schilling Blvd. Collierville, TN 38017

General Information: 901-761-0050

Transportation Emergency Number: CHEMTREC:800-424-9300

Hazard Identification

Signal Word: Warning

Skin Irritation: No irritation on 5 of 6 at 7 days; desquamation on 1/6 at 14 days.

Eye Irritation : 21 days-minor corneal injury in 1 of 6; minor conjunctival redness in 2 of

Acute Toxicity Oral : LD50 (rat) 2,330 mg/kg (combined male/female rate) Acute Toxicity Dermal : LD50 (rabbit) 2,640 mg/kg (combined male/female rate)

Hazard Categories: Oral/Dermal/Inhalation Toxicity - 5/5/5; Eye Irritation - 2A; Skin Irritation -

Hazard Statement: May be harmful if swallowed

May be harmful in contact with skin Causes serious eve irritation Causes mild skin irritation May be harmful if inhaled

Composition / Information on Ingredients

Component Polyalkyleneoxide modified

heptamethyltrisiloxane, allyloxypolyethyleneglycol methyl ether. **CAS Number** Proprietary

Weight % 100.00

First Aid Measures

Eye: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing

eye. Call a poison control center or doctor for treatment advice.

Skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

Inhalation: Move person to fresh air. If person is not breathing, call 911 or an ambulance,

then give artificial respiration, preferably mouth-to-mouth, if possible. Call a

poison center or doctor for further treatment advice.

Ingestion: Call a poison control center or doctor immediately for treatment advice. Have

person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth if

unconscious.

Indication of Immediate Medical: Treat symptomatically. **Attention and Special Treatment**

Needed

Report Date 14-Apr-15

Page 2 of 4

5. Fire Fighting Measures

Extinguishing Media: Use alcohol-type or universal-type foam for large fires. Use carbon dioxide or

dry chemical extinguishing agents for small fires.

Specific Hazards Arising from the : Do not spray a solid stream of water or foam directly into a pool of hot, burning

Chemical liquid. This may cause frothing and increase fire intensity.

Special Fire Fight Proc : Wear self-contained breathing apparatus and full protective clothing.

6. Accidental Release Measures

Personal Precautions : Keep unprotected and unnecessary personnel out of spill area.

Protective Equipment: Splashproof goggles or faceshield, impervious gloves, impervious apron and

footwear. Eyewash and emergency shower should be available in work area.

Respiratory protection not normally needed.

Emergency Procedures : Spill area will be quite slippery. Dike spill area to prevent spreading. Spill may be

reportable under the Clean Water Act.

Methods and Materials for : Use an oil absorbent material, such as clay, sand or sawdust. Collect and place

Containment and Cleanup in suitable containers for proper disposal.

7. Handling and Storage

Precautions for Safe Handling: Keep out of reach of children. Keep container tightly closed. Do not allow water

to be introduced into the contents of this container.

Conditions for Safe Storage : Store in original container only. Do not store near heat or open flame. Do not

store with oxidizing agents.

8. Exposure Controls / Personal Protection

TLV/PEL: Not available for mixture

Appropriate Engineering Controls: General (mechanical) room ventilation is expected to be satisfactory.

Personal Protective Equipment : Splashproof goggles or faceshield, impervious gloves, impervious apron and

footwear. Eyewash and emergency shower should be available in work area.

Respiratory protection not normally needed.

9. Physical and Chemical Properties

Odor/Appearance: Clear, colorless liquid with polyether odor.

Flash Point, °F : 241 Degrees F.

Boiling Point, °F : >302 Degrees F.

Melting Point(Freezing point), °C : 30 Degrees F.

Vapor Pressure, mm Hg @ 20 °C : <1 mmHg

Vapor Density : >1
Solubility in Water : Dispersible

Molecular Formula: Not applicable, formulated mixture.

Density, g/mL @ **25 °C** : 1.005-1.015

Evaporation Rate(Butyl Acetate = : <1

1)

Octanol/Water Partition : No information found

Coefficient

pH: Not applicable, no water content.

Flammable Limits (approximate : No information found

volume % in air)

Auto-ignition Temperature : Not determined

Report Date 14-Apr-15

Page 3 of 4

Decomposition temperature: No information found

10. Stability and Reactivity

Reactivity: No information found

Chemical Stability: Stable

Hazardous Decomposition : Burning can produce carbon oxides, oxides of silicon, formaldehyde.

Products

Hazardous Polymerization : Will not occur Conditions to Avoid : None known Incompatible Materials : None known

11. Toxicological Information

Acute Toxicity (Oral LD50) : 2,330 mg/kg (rat) combined male/female rate. May be harmful if swallowed.

Acute Toxicity (Dermal LD50) : 2,640 mg/kg combined male/female rate. May be harmful in contact with skin.

Acute Toxicity Inhalation LC50 : Substantially saturated vapor: no deaths in 6 hours, 5 male, 5 female. May be

harmful if inhaled.

Likely Routes of Exposure : Eyes, skin, inhalation

Skin Irritation: No irritation on 5 of 6 at 7 days; desquamation on 1/6 at 14 days. Causes mild

skin irritation.

Eye Irritation: 21 days-minor corneal injury in 1 of 6; minor conjunctival redness in 2 of 6.

Causes serious eye irritation.

Skin Sensitization: Did not cause sensitization on laboratory animals (guinea pig).

Carcinogenic: Not listed by IARC, NTP or OSHA.

Chronic Effects: No information found

Other Hazards: Findings from a 14-day dietary feeding study with rats show that high dosage

repeated ingestion causes reversible adverse effects on the male and female

reproductive tracts.

12. Ecological Information

Ecotoxicity: No information found

Persistence and Degradability : No information found Bioaccumulative Potential : No information found Mobility in Soil : No information found

Other Adverse Effects: None currently known

13. Disposal Considerations

Waste Disposal Method : This material must be disposed of according to Federal, State or Local

procedure under the Resource Conservation and Recovery Act.

14. Transport Information

UN Proper Shipping Name: Not regulated by DOT, IATA or IMDG.

Transport Hazard Class : None
UN Identification Number : None
Packaging Group : None

Environmental Hazards : No information found Transport in Bulk : No information found

Report Date 14-Apr-15
