| <b>Website</b>  | <a href="http://www.gavilon.com">www.gavilon.com</a>                     |                |
| <b>Contact person</b>   | EH&S/Regulatory Department   |                |
| <b>Emergency phone number</b>                                       | CHEMTREC (24 hours):   | 1-800-424-9300 |

## 2. Hazard(s) identification

|                             |                                   |             |
|-----------------------------|-----------------------------------|-------------|
| <b>Physical hazards</b>     | Not classified.                   |             |
| <br>                        |                                   |             |
| <b>Health hazards</b>       | Serious eye damage/eye irritation | Category 2A |
|                             | Acute toxicity (Oral)             | Category 4  |
|                             | Aspiration                        | Category 2  |
|                             | Suspected damaging fertility      | Category 2  |
| <br>                        |                                   |             |
| <b>OSHA defined hazards</b> | Not classified.                   |             |

### Label elements

#### Hazard symbols

#### Signal word

Danger!

#### Hazard statement

Causes skin irritation. Causes serious eye irritation. May damage fertility or the unborn child. May cause respiratory irritation.

#### Precautionary statement

##### Prevention

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing mist/vapors/spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection.

##### Response

If on skin: Wash with plenty of water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If exposed or concerned: Get medical advice/ attention. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell.

##### Storage

Store locked up. Store above 10°F and below 100°F. Keep container tightly closed.

##### Disposal

Dispose of waste and residues in accordance with local authority requirements.

#### Hazard(s) not otherwise classified (HNOC)

Not classified.

#### Supplemental information

Not applicable.

### 3. Composition/information on ingredients

#### Mixtures

| Chemical name                       | CAS number   | %       |
|-------------------------------------|--------------|---------|
| Proprietary Solvent Blend           | *Proprietary | 75 – 85 |
| N-(n-butyl)-thiophosphoric triamide | 94317-64-3   | 15 – 25 |
| Yellow colorant                     | Mixture      | 0 - 1   |

\*Proprietary indicates that the chemical identity of this component is claimed as a trade secret per the HCS 29CFR 1910.1200

#### Composition comments

All concentrations are in weight unless ingredient is a gas. Gas concentrations are in percent by volume.  
This Safety Data Sheet is not a guarantee of product specification or NPK value(s). NPK content is on specified sales orders, customer invoices, or product specification sheets obtained from supplier.

### 4. First-aid measures

#### Eye contact

Check for and remove contact lenses. Flush immediately with copious amounts of water or normal saline (minimum of 15 minutes), holding eyelids apart to ensure complete irrigation of the eye and eyelid tissue. Take exposed individual to a health care professional, preferably an ophthalmologist, for further evaluation.

#### Skin contact

Remove contaminated clothing, shoes and equipment. Wash exposed area with plenty of soap and water. Repeat washing. If redness or irritation occurs, seek medical attention. Wash contaminated clothing before reuse.

#### Inhalation

Move person to fresh air. If the affected person is not breathing, apply artificial respiration. Get medical attention immediately.

#### Ingestion

Rinse mouth thoroughly. Drink 1 or 2 glasses of water. Do not induce vomiting without advice from poison control center. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical attention.

#### Most important symptoms/effects, acute and delayed

Risk of serious damage to eyes. Skin irritation. Respiratory tract irritation.

#### Indication of immediate medical attention and special treatment needed

Treat symptomatically. Symptoms may be delayed.

#### General information

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

### 5. Fire-fighting measures

#### Suitable extinguishing media

Water fog. Water spray. Carbon dioxide (CO<sub>2</sub>). Foam.

#### Unsuitable extinguishing media

Do not use water jet as an extinguisher, as this will spread the fire.

#### Specific hazards arising from the chemical

Fire may produce irritating, corrosive and/or toxic gases.

#### Special protective equipment and precautions for firefighters

Self-contained breathing apparatus and full protective clothing should be worn when fighting chemical fires. Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace.

**Fire-fighting equipment/instructions**

Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from the fire area if you can do so without risk.

6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**

Avoid inhalation of vapors and spray mist and contact with skin and eyes. Ensure adequate ventilation. Wear suitable protective clothing. For personal protection see Section 8 of the SDS.

**Methods and materials for containment and cleaning up**

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb with vermiculite, dry sand or earth and place into containers. After removal flush contaminated area thoroughly with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

**Environmental precautions**

Prevent further leakage or spillage if safe to do so. Do not contaminate water. Do not allow to enter drains, sewers or watercourses.

7. Handling and storage

**Precautions for safe handling**

Avoid inhalation of vapors/spray and contact with skin and eyes. Use only with adequate ventilation. Observe good industrial hygiene practices.

**Conditions for safe storage, including any incompatibilities**

Keep container tightly closed. Store in a cool, dry well-ventilated place. Store away from incompatible materials. Long term storage at temperatures above 100°F (36°C), and long term storage of opened containers, will cause the product to degrade. Always use oldest stock first.

8. Exposure controls/personal protection

**Occupational exposure limits**

No exposure limits noted for ingredient(s).

**Biological limit values**

No biological exposure limits noted for the ingredient(s).

**Exposure guidelines**

Follow standard monitoring procedures.

**Appropriate engineering controls**

Provide adequate general and local exhaust ventilation. Observe Occupational Exposure Limits and minimize the risk of inhalation of vapors and mists. Provide eyewash station and safety shower.

**Individual protection measures such as personal protective equipment**

**Eye/face protection**

Chemical goggles are recommended.

**Skin Protection**

**Hand protection**

Chemical resistant gloves are recommended. Be aware that the liquid may penetrate the gloves. Frequent change is advisable. Suitable gloves can be recommended by the glove supplier.

**Other**

Wear appropriate clothing to prevent repeated or prolonged skin contact.

**Respiratory protection**

If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Wear air supplied respiratory protection if exposure concentrations are unknown. In case of inadequate ventilation or risk of inhalation of

vapors, use suitable respiratory equipment.

In the United States of America, if respirators are used, a program should be instituted to assure compliance with OSHA 29 CFR 1910.134 and ANSI Z88.2.

**Thermal hazards**

Wear appropriate thermal protective clothing, when necessary.

**General hygiene consideration**

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Handle in accordance with good industrial hygiene and safety practice.

**9. Physical and chemical properties**

**Appearance**

|  |                     |
|--|---------------------|
| <b>Physical State</b>                          | Yellow liquid.      |
| <b>Form</b>                                    | Liquid.             |
| <b>Color</b>                                   | Yellow.             |
| <b>Odor</b>                                    | Mild, sulfur-like   |
| <b>Odor threshold</b>                          | Not available.      |
| <b>pH</b>                                      | 9.55 (neat)         |
| <b>Melting point/freezing point</b>            | < -17.7°C (0°F)     |
| <b>Initial boiling point and boiling range</b> | Unknown.            |
| <b>Flash point</b>                             | >=94°C (201°F) PMCC |
| <b>Evaporation Rate</b>                        | No data available.  |
| <b>Flammability (solid, gas)</b>               | No data available.  |
| <b>Upper/lower flammability</b>                |                     |
| <b>Flammability limit-lower (%)</b>            | No data available.  |
| <b>Flammability limit-upper (%)</b>            | No data available.  |
| <b>Vapor pressure</b>                          | No data available.  |
| <b>Vapor Density (Air=1)</b>                   | No data available.  |
| <b>Relative density</b>                        | 1.1347 @ 15.5°C     |
| <b>Solubility</b>                              | Completely soluble. |
| <b>Partition coefficient (n-octanol/water)</b> | No data available.  |
| <b>Decomposition temperature</b>               | No data available.  |
| <b>Auto-ignition temperature</b>               | No data available.  |
| <b>Viscosity</b>                               |                     |
| <b>Other information</b>                       |                     |
| <b>Percent volatile</b>                        | Not available.      |

**10. Stability and reactivity**

|   |  |
|---|--|
| <b>Reactivity</b>                         | This product is stable and non-reactive under normal conditions of use, storage and transport. |
| <b>Chemical stability</b>                 | Stable under normal temperature conditions and recommended use.                                |
| <b>Possibility of hazardous reactions</b> | Hazardous polymerization does not occur.   |
| <b>Conditions to avoid</b>                | Extreme temperatures.  |
| <b>Incompatible materials</b>             | Strong oxidizing agents.   |
| <b>Hazardous decomposition products</b>   | During combustion: Carbon monoxide. Carbon dioxide. Nitrogen oxides. Sulfur oxides.            |

**11. Toxicological information**

**Information on likely routes of exposure**

|                   |  |
|-------------------|--|
| <b>Ingestion</b>  | May cause discomfort if swallowed.   |
| <b>Inhalation</b> | Vapors and spray mist may irritate throat and respiratory system and cause coughing. |

**Skin contact**  
**Eye contact.**

Prolonged or repeated skin contact may cause irritation.  
Causes serious eye damage.

**Symptoms related to the physical, chemical and toxicological characteristics**

Risk of serious damage to eyes. Skin irritation. Respiratory tract irritation.

**Information on toxicological effects**

**Acute toxicity**

May cause discomfort if swallowed.

| Components   | Species | Test Results |
|--|---------|--------------|
| N-(n-butyl)-thiophosphoric triamide (CAS 94317-64-3) |         |              |
| <b>Acute</b>   |         |              |
| <i>Dermal</i>  |         |              |
| LD50   | Rat     | > 2000 mg/kg |
| <i>Oral</i>  |         |              |
| LD50   | Rat     | > 2823 mg/kg |

**Skin corrosion/irritation**

Prolonged contact may cause slight skin irritation with local redness.

**Serious eye damage/eye Irritation**

Causes serious eye irritation.

**Respiratory sensitization**  
**Skin sensitization**  
**Germ cell mutagenicity**  
**Carcinogenicity**  
**Reproductive toxicity**

No data available.  
No data available.  
No data available.  
This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.  
May damage fertility or the unborn child.

**Specific target organ toxicity-single exposure**

May cause respiratory irritation.

**Specific target organ toxicity-repeated exposure**

No data available.

**Aspiration hazard**

Not classified.

**Chronic effects**

Prolonged exposure may cause chronic effects.

**Further information**

No other specific acute or chronic health impact noted.

**12. Ecological information**

**Ecotoxicity**

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

| Components   | Species | Test Results        |
|--|---------|---------------------|
| N-(n-butyl)-thiophosphoric triamide (CAS 94317-64-3) |         |                     |
| <b>Aquatic</b>                                       |         |                     |
| Crustacea  | EC50    | Daphnia             |
| Fish   | LC50    | Fish                |
|  |         | 290 mg/l, 48 hours  |
|  |         | 1140 mg/l, 96 hours |

**Persistence and degradability**

No data available.

**Bioaccumulative potential**

No data available.

**Mobility in soil**

This product is water soluble and may disperse in soil.

**Other adverse effects**

No data available.

## 13. Disposal considerations

|  |  |
|--|--|
| <b>Disposal instructions</b>                 | Do not allow this material to drain into sewers/water supplies. Dispose in accordance with all applicable regulations.   |
| <b>Hazardous waste code</b>                  | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |
| <b>Waste from residues / unused products</b> | Disposal recommendations are based on material as supplied. Disposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal. |
| <b>Contaminated packaging</b>                | Since emptied containers may retain product residue, follow label warnings even after container is emptied.  |

## 14. Transport information

|   |   |
|---|---|
| <b>DOT</b>  | Not regulated as a hazardous material by DOT. |
| <b>IATA</b>   | Not regulated as a dangerous goods.           |
| <b>IMDG</b>   | Not regulated as a dangerous goods.           |
| <b>Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code</b> | Not established.                              |

## 15. Regulatory information

|                               |  |
|-------------------------------|--|
| <b>US federal regulations</b> | All components of this product are on the U.S. EPA TSCA Inventory List or are exempt from TSCA inventory requirements.<br>This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. |
|-------------------------------|--|

**TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)**

N-(n-butyl)-thiophosphoric triamide (CAS 94317-64-3) 1.0% One-Time Export Notification only.

**US OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)**

Not listed.

**CERCLA Hazardous Substance List (40 CFR 302.4)**

Not listed.

**Superfund Amendments and Reauthorization Act of 1986 (SARA)**
