Wuxal® Triple
Foliar Nutrient Suspension

GUARANTEED ANALYSIS:
Total Nitrogen (N) ........................................ 15.000%
7.100% Urea Nitrogen
2.700% Nitrate Nitrogen
5.200% Ammoniacal Nitrogen
Available Phosphate (P2O5) .................. 15.000%
Soluble Potash (K2O) ......................... 15.000%
Sulfur (S) ............................................ 1.100%
1.100% Combined Sulfur (S)
Boron (B) ........................................... 0.020%
0.020% Water Soluble Boron (B)
Copper (Cu) .......................................... 0.050%
0.050% Chelated Copper (Cu)
Iron (Fe) ................................................ 0.100%
0.100% Chelated Iron (Fe)
Manganese (Mn) .................................... 0.050%
0.050% Chelated Manganese (Mn)
Molybdenum (Mo) ................................. 0.001%
0.001% Water Soluble Molybdenum (Mo)
Zinc (Zn) ............................................. 0.050%
0.050% Chelated Zinc (Zn)

DERIVED FROM:
Urea, Potassium Nitrate, Diammonium Phosphate, Monopotassium Phosphate, Potassium Chloride, Potassium Sulfate, Ammonium Borate, Copper EDTA, Iron EDTA, Manganese EDTA, Sodium Molybdate, Zinc EDTA

STORAGE AND DISPOSAL
- Do not reuse empty container. Dispose of the container in accordance with federal, state and local regulations.
- Temperature fluctuations and long term storage may cause reversible separation. Neither condition will affect product efficacy if properly mixed prior to use. Do not reuse empty container. Dispose of the container in accordance with federal, state and local regulations.

MIXING
- When tank mixing Wuxal Triple with other products, conduct a jar test to ensure compatibility. Fill the spray tank with 75% of the desired water volume. While the water is agitating, add tank mix ingredients in the following order: 1. Water-soluble packets, dry fertilizers and dispersible granules. 2. Wuxal Triple. 3. Flowables. 4. Emulsifiable concentrates. 5. Water-soluble Potassium.

KEEP OUT OF REACH OF CHILDREN
WARNING
PRECAUTIONARY STATEMENTS
- Causes skin and eye irritation. If medical advice is needed, have product container or label at hand. Read label before use. Wash protective work clothes thoroughly after handling. Wear personal protective equipment.

CAUTION:
This fertilizer is to be used only on crops which respond to molybdenum. Crops high in molybdenum are toxic to grazing animals (ruminants).

FIRST AID
If Swallowed:
Rinse mouth. Have person sip a glass of water if able to swallow. DO NOT induce vomiting, unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

If In Eyes:
Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.

If On Skin:
Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention. Treat symptomatically. Take off contaminated clothing and wash it before reuse.

If Inhaled:
Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.

 Foliar fertilizer can be an effective remedy for diagnosed plant deficiencies of secondary nutrients and micronutrients, but may cause plant damage if applied at more than recommended rates or concentrations. Use of this product is recommended only as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by crops or other intended plants.

USE DIRECTIONS FOR FOLIAR FERTILIZATION:
IMPORTANT HANDLING INSTRUCTIONS, PLEASE READ

Wuxal Triple is a high load suspension fertilizer. During storage an internal structure forms to retard settling and separation. At time of use, this structure is destroyed by striking the container forcefully with a rubber mallet or fist, followed by aggressive shaking of the container. Always apply with sufficient water or tank mix partners to ensure thorough leaf coverage. Avoid application during periods of excessive heat (mid-day) to reduce potential for leaf injury.

CONDITIONS OF SALE
Note: Read the information contained herein before buying or using this product. If the stated terms are not acceptable, return the product at once, unopened. It is critical that this material is reasonably fit for use as specified on this label. The manufacturer nor the seller makes any representation or warranty, expressed or implied, with respect to the results from the use of this material. Buyer and user assume all risks of use and handling. Precision Laboratories, LLC warrants that this material is reasonably fit for use as specified on this label. No agent or representative is authorized to make any other representations concerning this material. Unforeseen factors beyond Precision's control prevent elimination of risks in connection with the use of its chemicals. Such risks include, but are not limited to, damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use as stated herein and even though labels directions are followed. Follow directions carefully. Timing, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of the seller. Except to the extent prohibited by applicable law, the exclusive remedy of the user or buyer and the limit of liability of the company or any other seller for any and all losses, personal injuries or damages resulting from the use of this product, shall be the purchase price paid by the user or buyer for the quantity of product involved.
