**Section 1 - Chemical Product and Company Identification**

**Chemical Name:** Inorganic Salt Solution  
**Product Use:** Electroplating Operations  
**Synonyms:** 50% Technical Grade, Electroplating Grade; 62.5% Technical Grade, Electroplating Grade, Battery Grade; 70° BE Technical Grade; 72° BE Technical Grade

**Manufacturer Information**  
MINERAL RESEARCH AND DEVELOPMENT  
Phone: 704-454-4811  
5910 Pharr Mill Road or PO Box 1330  
FAX: 704-454-7390  
Harrisburg, NC 28075  
Emergency # CHEMTREC: (800) 424-9300

**General Comments**  
NOTE: Emergency telephone numbers are to be used only in the event of chemical emergencies involving a spill, leak, fire, exposure, or accident involving chemicals. All non-emergency questions should be directed to customer service.

**Component Information/Information on Non-Hazardous Components**  
This product is considered hazardous under 29 CFR 1910.1200 (Hazard Communication). This product is considered hazardous under the criteria specified in the Canadian Workplace Hazardous Materials Information System (WHMIS).

**Section 3 - Hazards Identification**

**Emergency Overview**  
DANGER! CORROSIVE! This product may be harmful or fatal if swallowed. Causes severe irritation or burns to the eyes, skin, gastrointestinal tract, and respiratory system.

**Potential Health Effects: Eyes**  
Depending on the duration of overexposure, contact with the eyes will cause irritation, pain, reddening, and blindness. May cause eye damage or burns.

**Potential Health Effects: Skin**  
This product is severely irritating to the skin and may cause burns. Depending on the duration of skin contact, skin overexposures will cause reddening, discomfort, irritation, ulceration, and chemical burns. Chemical burns can result in blistering of the skin and scarring. Repeated skin overexposures can result in dermatitis (inflammation and reddening of the skin).

**Potential Health Effects: Ingestion**  
This product may be harmful or fatal if swallowed. If ingested, this product will immediately cause burns to the mouth, throat, esophagus and possibly the digestive tract. Overexposure symptoms include: drowsiness, confusion, difficulty swallowing, a burning sensation in the esophagus and stomach, intense thirst, nausea, abdominal pain, vomiting, diarrhea, stomach perforation, bloody stools or urine, convulsions, and collapse. Large quantity ingestion may be fatal.

**Potential Health Effects: Inhalation**  
This product is irritating to the respiratory system. Damage to the tissues of the respiratory system may occur, such as burns and ulcers, especially after prolonged overexposures or overexposures to high concentrations of this product. Additional inhalation symptoms may include the following: choking, coughing, and difficulty breathing. Severe inhalation overexposures can lead to pulmonary edema, pneumonitis, and death.
Material Safety Data Sheet

Material Name: ZINC CHLORIDE SOLUTION (25-72%)  ID: MRD-094

Medical Conditions Aggravated by Exposure
Pre-existing skin and eye conditions.

HMIS Ratings: Health: 3  Fire: 0  Physical Hazard: 0
Hazard Scale: 0 = Minimal  1 = Slight  2 = Moderate  3 = Serious  4 = Severe  * = Chronic hazard

*** Section 4 - First Aid Measures ***

First Aid: Eyes
Immediately flush eyes with water for at least 15 minutes, while holding eyelids open. Seek medical attention at once.

First Aid: Skin
For skin contact flush with large amounts of water while removing contaminated clothing. Continue flushing skin with water for 15 minutes. Seek immediate medical attention. Contaminated leather articles, including shoes, that cannot be decontaminated should be discarded.

First Aid: Ingestion
If material is ingested, immediately contact a physician or poison control center. Do not induce vomiting. Never give anything by mouth to a victim who is unconscious or is having convulsions.

First Aid: Inhalation
If inhaled, immediately remove the affected person to fresh air. If the affected person is not breathing, have qualified personnel apply artificial respiration. Do NOT perform mouth-to-mouth resuscitation. Call a physician immediately.

First Aid: Notes to Physician
Provide general supportive measures and treat symptomatically.

*** Section 5 - Fire Fighting Measures ***

Flash Point: Not flammable
Upper Flammable Limit (UFL): Not applicable
Auto Ignition: Not flammable
Rate of Burning: Not applicable

Method Used: Not applicable
Lower Flammable Limit (LFL): Not applicable
Flammability Classification: Non-flammable

General Fire Hazards
This product is an aqueous solution which will not burn.

Hazardous Combustion Products
Decomposition may yield zinc compounds, hydrogen chloride, and chlorine.

Extinguishing Media
Dry chemical, foam, carbon dioxide, water fog.

Fire Fighting Equipment/Instructions
This product is corrosive, and presents a severe contact hazard to fire-fighters. Fire fighters should wear full-face, self contained breathing apparatus and impervious protective clothing. Fire fighters should avoid inhaling any combustion products. If this product is involved in a fire, fire run-off water should be contained to prevent possible environmental damage.

NFPA Ratings: Health: 3  Fire: 0  Reactivity: 0
Hazard Scale: 0 = Minimal  1 = Slight  2 = Moderate  3 = Serious  4 = Severe

*** Section 6 - Accidental Release Measures ***

Containment Procedures
Stop the flow of material, if this is without risk. Wear appropriate protective equipment and clothing during clean-up. Contain the discharged material and dike the spilled material where possible. Prevent entry into sewers, drains, underground or confined spaces, water intakes and waterways.

Clean-Up Procedures
Absorb spill with inert material. Shovel the absorbed material into appropriate container for disposal. Decontaminate the area thoroughly.
Evacuation Procedures
Isolate area. Keep unnecessary personnel away.

Special Procedures
Isolate exposure. Wear appropriate personal protective equipment. Follow all Local, State, Federal and Provincial regulations for disposal.

*** Section 7 - Handling and Storage ***

Handling Procedures
Do not get this material in your eyes, on your skin, or on your clothing. Do not inhale vapors or mists of this product. Wash thoroughly after handling. Do not eat, drink or use tobacco products when handling this material. Use this product with adequate ventilation. Launder work clothes frequently. See Section 8 for appropriate protective clothing, equipment and air monitoring procedures.

Open containers slowly, on a stable surface. Containers of this product must be properly labeled. Empty containers may contain residual liquid or vapors. Empty containers should be handled with care.

Storage Procedures
Store containers in a cool, dry location, away from direct sunlight, sources of intense heat, or where freezing is possible. Store away from incompatible materials (see SECTION 10: Stability and Reactivity). Material should be stored in secondary containers, or in a diked area, as appropriate. Keep container tightly closed when not in use. Inspect all incoming containers before storage, to ensure containers are properly labeled and not damaged.

*** Section 8 - Exposure Controls / Personal Protection ***

Exposure Guidelines
A: General Product Information
Keep formation of airborne mists to a minimum.
B: Component Exposure Limits

Zinc chloride (7646-85-7)

ACGIH: 1 mg/m³ TWA (fume)
2 mg/m³ STEL (fume)

OSHA (Final): 1 mg/m³ TWA (fume)

OSHA (Vacated): 1 mg/m³ TWA
2 mg/m³ STEL

NIOSH: 1 mg/m³ TWA (fume)
2 mg/m³ STEL (fume)

Alberta: 1 mg/m³ TWA (fume)
2 mg/m³ STEL (fume)

British Columbia: 1 mg/m³ TWA (fume)
2 mg/m³ STEL (fume)

Manitoba: 1 mg/m³ TWA (fume)
2 mg/m³ STEL (fume)

New Brunswick: 1 mg/m³ TWA (fume)
2 mg/m³ STEL (fume)

NW Territories: 1 mg/m³ TWA (fume)
2 mg/m³ STEL (fume)

Nova Scotia: 1 mg/m³ TWA (fume)
2 mg/m³ STEL (fume)

Nunavut: 1 mg/m³ TWA (fume)
2 mg/m³ STEL (fume)

Ontario: 1 mg/m³ TWA EV (fume)
2 mg/m³ STEV (fume)

Quebec: 1 mg/m³ TWA EV (fume)

Saskatchewan: 1 mg/m³ TWA (fume)
2 mg/m³ STEL (fume)

Yukon: 1 mg/m³ TWA (fume)
2 mg/m³ STEL (fume)

Engineering Controls
Provide local and general exhaust ventilation to effectively remove and prevent buildup of any vapors or mists generated from the handling of this product.

PERSONAL PROTECTIVE EQUIPMENT

Personal Protective Equipment: Eyes/Face
Wear chemical goggles; face shield (if splashing is possible).

Personal Protective Equipment: Skin
Wear impervious (neoprene) gloves, impervious apron.

Personal Protective Equipment: Respiratory
If ventilation is not sufficient to effectively prevent buildup of vapors or mists, appropriate approved NIOSH respiratory protection must be provided. Respirators should be selected by and used under the direction of a trained health and safety professional following requirements found in OSHA’s respirator standard (29 CFR 1910.134) and ANSI’s standard for respiratory protection (Z88.2-1992). A written respiratory protection program, including provisions for medical certification, training, fit testing, exposure assessments, maintenance, inspection, cleaning, and convenient, sanitary storage must be implemented.

Personal Protective Equipment: General
Eye wash fountain and emergency showers are recommended. An emergency spill response will necessitate the use of more stringent personal protective equipment.

** *** Section 10 - Chemical Stability & Reactivity Information *** **

**Chemical Stability**
This is a stable material.

**Chemical Stability: Conditions to Avoid**
Avoid contact with incompatible materials.

**Incompatibility**
This product is incompatible with potassium, strong bases and strong oxidizing agents.

**Hazardous Decomposition**
Decomposition may yield zinc compounds, hydrogen chloride, and chlorine.

**Hazardous Polymerization**
Will not occur.

** *** Section 11 - Toxicological Information *** **

**Acute and Chronic Toxicity**

**A: General Product Information**
Acute exposure can cause severe irritation and burns of the eyes, skin, gastrointestinal tract and respiratory tract.

Zinc chloride is an eye, skin and respiratory system irritant. Inhalation of zinc fumes may result in temporary metal fume fever. Other symptoms such as slight leukocytosis, respiratory disease and hypocalcemia have been reported from occupational exposure to zinc compounds.

**B: Component Analysis - LD50/LC50**

**Water (7732-18-5)**
Oral LD50 Rat: >90 mL/kg

**Zinc chloride (7646-85-7)**
Oral LD50 Rat: 350 mg/kg
50 mg/m3 IDLH (fume)

**Carcinogenicity**

**A: General Product Information**
No carcinogenicity data available for this product.

**B: Component Carcinogenicity**
None of this product's components are listed by ACGIH, IARC, OSHA, NIOSH, or NTP.

** *** Section 12 - Ecological Information *** **

**Ecotoxicity**

**A: General Product Information**
Due to the acidic nature of this product, a release of this product in a river or other body of water (especially in large volumes) will kill fish and other aquatic life.

**B: Component Analysis - Ecotoxicity - Aquatic Toxicity**
No ecotoxicity data are available for this product's components.
Environmental Fate
The components of this product are relatively stable under ambient, environmental conditions.

*** Section 13 - Disposal Considerations ***

US EPA Waste Number & Descriptions
A: General Product Information
If discarded, this product is considered a RCRA corrosive waste, D002. Wastes must be tested using methods described in 40 CFR Part 261 to determine if it meets applicable definitions of hazardous wastes.

B: Component Waste Numbers
No EPA Waste Numbers are applicable for this product’s components.

Disposal Instructions
Dispose of waste material according to Local, State, Federal, and Provincial Environmental Regulations. Wastes must be tested using methods described in 40 CFR Part 261 to determine if it meets applicable definitions of hazardous wastes.

*** Section 14 - Transportation Information ***

US DOT Information
UN/NA #: UN1840
Shipping Name: Zinc chloride, solution
Hazard Class: 8 Packing Group: III
Required Label(s): CORROSIVE

EmS: F-A, S-B

*** Section 15 - Regulatory Information ***

US Federal Regulations
A: General Product Information
All components are on the U.S. EPA TSCA Inventory List.

B: Component Analysis
This material contains one or more of the following chemicals required to be identified under SARA Section 302 (40 CFR 355 Appendix A), SARA Section 313 (40 CFR 372.65) and/or CERCLA (40 CFR 302.4).

Zinc chloride (7646-85-7)
CERCLA: 1000 lb final RQ; 454 kg final RQ

C: Federal Insecticide, Fungicide, and Rodenticide Act
No information is available.

SARA 311/312: Acute Health Yes Chronic Health No Fire No Pressure No Reactive No
